14 The Internet Corporation for Assigned
15 Names and Numbers,

16 Plaintiff,

17 v.

18 RegisterFly.Com, Inc., and
19 UnifiedNames, Inc.,

20 Defendants.

Case No. CV 07-02090 MR (PLA)

**COMPLAINT FOR BREACH OF
CONTRACT, PRELIMINARY
INJUNCTION, AND
DECLARATORY RELIEF**

1 Plaintiff The Internet Corporation for Assigned Names and Numbers
2 (“ICANN”) brings this Complaint for Breach of Contract, Preliminary Injunction,
3 and Declaratory Relief against Defendants RegisterFly.Com, Inc., and
4 UnifiedNames, Inc. (collectively referred to as “RegisterFly”) and alleges the
5 following:

6 **INTRODUCTION**

7 1. This is an action for breach of contract, injunctive relief, and
8 declaratory relief with respect to the repeated breaches by Defendant
9 RegisterFly.Com, Inc. of its contract with ICANN. A true and correct copy of the
10 contract, the RegisterFly/ICANN RAA (“RegisterFly RAA”) is attached hereto as
11 Attachment 1.

12 **THE PARTIES**

13 2. Plaintiff ICANN is a not-for-profit public benefit corporation
14 organized under the laws of the State of California with its principal place of
15 business in Marina Del Rey, California.

16 3. ICANN is informed and believes that Defendant RegisterFly.com, Inc.
17 is a for-profit public corporation organized under the laws of the State of Delaware
18 with its principal place of business in Miami Beach, Florida.

19 4. ICANN is informed and believes that Defendant UnifiedNames, Inc. is
20 the parent company for RegisterFly.Com, Inc. Defendant UnifiedNames, Inc. is a
21 for-profit public corporation organized under the laws of the State of New Jersey
22 with a separate principal place of business in Miami Beach, Florida.

23 **JURISDICTION AND VENUE**

24 5. This Court has jurisdiction over the subject matter of this action under
25 28 U.S.C. § 1332(a)(2). The amount in controversy exceeds \$75,000, exclusive of
26 interest and costs, and the dispute is between a citizen of California, ICANN, a
27 citizen of Florida and Delaware, RegisterFly.com, Inc., and a citizen of New Jersey
28 and Florida, UnifiedNames, Inc.

1 financial and technical capabilities and that it will follow contractual requirements
2 and consensus-based policies (regarding, among other things the collection and
3 maintenance of certain data for all second-level domain name registrations (the
4 “Data”). These obligations are recorded in the RAA signed by each registrar.
5 Under Section 4.1 of the RAA, all registrars are bound to follow ICANN’s
6 consensus policies such as the Inter-Registrar Transfer Policy (“Transfer Policy”).
7 A true and correct copy of the Model RAA (“RAA”), which the RegisterFly RAA
8 is based on, is attached hereto as Attachment 2. A true and correct copy of the
9 Transfer Policy is attached hereto as Attachment 3.

10 10. In order to register names, accredited registrars must also enter into
11 agreements with each registry in which they wish to register names. For each
12 registry, each registrar maintains an account with the registry from which a per-
13 name fee is deducted upon completion of registration. If these accounts are not
14 funded, the registry will not allow a domain name to be registered or renewed.

15 11. The Data collection and maintenance requirements are found primarily
16 at Sections 3.2, 3.3, and 3.4 of the RAA. These provisions specifically obligate
17 each registrar to maintain an electronic database containing the following
18 information for each domain name under the Registrar's sponsorship: (1) the
19 Registered Name; (2) the names of the primary nameserver and secondary
20 nameserver(s) for the Registered Name; (3) the identity of the registrar (which may
21 be provided through registrar's website); (4) the original creation date of the
22 registration; (5) the expiration date of the registration; (6) the name and postal
23 address of the Registered Name Holder; (7) the name, postal address, e-mail
24 address, voice telephone number, and (where available) fax number of the technical
25 contact for the Registered Name; (8) the name, postal address, e-mail address, voice
26 telephone number, and (where available) fax number of the administrative contact
27 for the Registered Name; (9) the name and (where available) postal address, e-mail
28 address, voice telephone number, and fax number of the billing contact; (10) any

1 other Registry Data that the registrar has submitted to the registry operator or
2 placed in the registry database.

3 12. In addition, each registrar must maintain: (a) the submission date and
4 time, and the content, of all registration data (including updates) submitted in
5 electronic form to the registry operator(s); (b) all written communications
6 constituting registration applications, confirmations, modifications, or terminations
7 and related correspondence with Registered Name Holders, including registration
8 contracts; and (c) records of the accounts of all Registered Name Holders with the
9 registrar, including dates and amounts of all payments and refunds.

10 13. Section 3.4.3 of the RAA requires that "[d]uring the Term of this
11 Agreement and for three years thereafter, Registrar shall make [the] records
12 [described in this paragraph] available for inspection and copying by ICANN upon
13 reasonable notice."

14 14. The basic process for registering a domain name is as follows. A
15 potential registrant first contacts a registrar or consults a publicly available "Whois"
16 service to determine whether a desired domain name is available for registration. If
17 the domain name is available, the registrant provides all required information to the
18 registrar (including the registrant's name and contact information) and pays a fee.
19 The registrar then submits the registration to the registry, then the registry deducts a
20 fee from the registrar's account and completes the registration of the domain name.
21 At that point, the consumer can use the domain name on the Internet for a web site,
22 email, or to otherwise interact with the online public.

23 15. Some consumers retain the services of third party "proxy" registration
24 companies (which are usually affiliated in ownership with the registrar or a reseller
25 of the registrar's services) in order to prevent their personal contact data from being
26 displayed publicly through Whois services. Proxy companies generally request and
27 maintain the consumer's contact information in the same way the registrar would,
28

1 but the proxy company becomes the public registrant of record for the domain name
2 so that the consumer's information is kept private.

3 16. Domain names may generally only be registered for fixed terms of 1 to
4 10 years, and the registration must be renewed if the registrant wishes to continue
5 use of the name after the end of the initial registration term. At the time of renewal,
6 the registry again deducts a fee from the registrar's account. If a domain name is
7 not renewed, the registration expires and it is deleted from the registry. It then
8 becomes part of a pool of unregistered names available to any registrar to offer to a
9 new registrant.

10 17. There are times when a domain name holder may wish to transfer its
11 registration to a different registrar. The "losing" registrar in such a transfer has
12 specific obligations under the Transfer Policy to comply with the request and to
13 provide authorization codes to the domain name holder to facilitate the transfer.

14 **RegisterFly's Relationship With ICANN**

15 18. Defendant RegisterFly is currently an ICANN-accredited registrar. On
16 September 13, 2004, ICANN entered into a registrar accreditation agreement with
17 "Top Class Names, Inc." On or around November 22, 2004, Top Class Names, Inc.
18 filed a Certificate of Amendment of Certificate of Incorporation with the State of
19 Delaware, changing its name to RegisterFly.Com, Inc.

20 19. RegisterFly currently has approximately 900,000 domain names under
21 its sponsorship.

22 20. RegisterFly is no longer following the domain name registration
23 process, and the company appears to be in a state of complete disarray. Because of
24 the ongoing breaches of the RAA, ICANN notified RegisterFly on March 16, 2007
25 that RegisterFly's RAA would be terminated pursuant to Section 5.3 of the RAA,
26 effective March 31, 2007. A true and correct copy of the Notice of Termination of
27 Registrar Accreditation Agreement ("Notice of Termination") is attached hereto as
28 Attachment 4.

1 21. Over the past several months, ICANN has received, by far, more
2 complaints from RegisterFly's customers than any other registrar. ICANN has
3 devoted an enormous amount of attention trying to assist RegisterFly in solving its
4 problems. Nevertheless, RegisterFly has not been able to resolve many of the
5 complaints made, and the company appears at this point to be insolvent and on the
6 brink of bankruptcy. Specifically, RegisterFly's registry accounts are unfunded (or
7 have negative balances), preventing RegisterFly customer's names from being
8 registered or renewed.

9 22. ICANN receives an excess of 100 complaints *every day* from
10 RegisterFly's customers. This has forced ICANN to literally create a customer
11 service department that is dedicated almost entirely to RegisterFly. The nature of
12 the complaints varies, but some recurring themes are:

- 13 • Customers cannot use their domain names, despite paying RegisterFly,
14 sometimes multiple times, for those names or renewal of those names;
15 and
- 16 • Customers are attempting to transfer their domain names to a new
17 registrar and are unable to obtain the needed authorization codes or
18 release from RegisterFly to effectuate the transfers.

19 23. On February 21, 2007, ICANN sent RegisterFly a notification of
20 breach letter ("First Breach Letter") detailing a number of breaches of the RAA.
21 For example, Section 4.1 of the RAA obligates RegisterFly to comply with the
22 Transfer Policy. RegisterFly, in violation of the Policy and in violation of the
23 RAA, withheld the required "AuthInfo" codes to allow a domain name holder to
24 transfer a domain to another registrar. In addition, RegisterFly failed to unlock
25 domain names, or otherwise provide authorization to facilitate requested transfers.
26 According to customer complaints received by ICANN, RegisterFly continues to
27 impede transfers. Further, under Section 3.4 of the RAA, RegisterFly is bound to
28 maintain and to update all required Data elements for each registered domain name,

1 as well as to maintain a historical database of this information available to ICANN
2 upon demand. At the time of the First Breach Letter, ICANN had issued multiple
3 requests to audit RegisterFly's data, which were refused. As detailed more below,
4 RegisterFly continues to breach this audit provision.

5 24. On February 21, 2007, ICANN also sent a Notice of Audit letter again
6 requesting to audit all RegisterFly registration and related Data. In addition,
7 ICANN demanded that RegisterFly, in accordance with section 3.6 of the RAA,
8 provide ICANN with a complete electronic copy of all registration Data.

9 25. RegisterFly failed to comply with both the audit and the Data escrow
10 portions of the February 21 demand. As a result, on February 28, 2007 ICANN
11 issued another demand for audit and a complete copy of all RegisterFly Data. By
12 the terms of the February 28, 2007, ICANN demanded compliance by March 1,
13 2007. RegisterFly still did not comply.

14 26. On March 2, 2007, ICANN issued a second notice of breach letter
15 ("Second Breach Letter") to RegisterFly. In the Second Breach Letter, ICANN
16 identified RegisterFly's breaches of Sections 3.4, 3.6 and 3.3 of the RAA. The
17 notice was based upon RegisterFly's continued refusal to comply with ICANN's
18 audit demands under Section 3.4, and refusal to provide ICANN with a complete
19 electronic copy of all registration Data under Section 3.6. RegisterFly's breach of
20 Section 3.3 of the RAA arose from RegisterFly's failure to continually maintain
21 public access to Whois data relating to registered names (via its website and Whois
22 service) as required under therein.

23 27. None of the breaches identified in the Second Breach Letter has been
24 cured.

25 28. On March 15, 2007, ICANN sent to RegisterFly a further demand
26 letter seeking a complete copy of RegisterFly's registration data, and reminding
27 RegisterFly of its continuing violation of Section 3.6 arising out of its refusal to
28 provide a complete copy of the Data.

1 29. On March 16, 2007, upon the expiration of RegisterFly's fifteen
2 working day period to cure all breaches identified in the First Breach Letter,
3 ICANN sent RegisterFly a notice of termination of the RAA ("Notice of
4 Termination"). The Notice of Termination specified that RegisterFly's
5 accreditation would terminate on March 31, 2007, in accordance with Section 5.3 of
6 the RAA. Upon termination of its accreditation, RegisterFly will no longer be able
7 to serve as an ICANN-accredited registrar. ICANN further ordered RegisterFly
8 immediately to cease the use of ICANN's trademarked logos on its website and
9 business materials, as ICANN was immediately terminating the Logo License
10 Appendix to the RAA. The Notice of Termination also requires RegisterFly's
11 assistance in facilitating a bulk transfer of its registered domains to ICANN.

12 30. On March 20, 2007, ICANN again contacted RegisterFly by letter,
13 reminding it of its continued obligation to provide: (1) immediate escrow of
14 RegisterFly's current database with updates every 48 hours until further notice; and
15 (2) access to RegisterFly's records for inspection by March 21, 2007. In addition,
16 ICANN pointed out RegisterFly's failure to remove the ICANN's trademarked
17 logos from its website in recognition of ICANN's termination of the Logo License
18 Appendix to the RAA. RegisterFly failed to immediately comply with any of
19 ICANN's demands.

20 31. On March 23, 2007, ICANN received a disc from RegisterFly
21 purporting to contain the Data ICANN demanded under the RAA. RegisterFly had
22 purported to provide ICANN with the requested Data on March 5, 2007, but the
23 submission was seriously incomplete, did not provide ICANN with Data for
24 customers who opted to use a proxy registration service, was internally
25 inconsistent, and appeared to be missing data for nearly 10% of RegisterFly's
26 sponsored registrations in the two most common registries, .com and .net.
27 RegisterFly's March 23, 2007 submission was identical to the March 5, 2007
28

1 submission, meaning that the information was now significantly stale in addition to
2 being inadequate and incomplete.

3 32. On March 27, 2007 ICANN sent a final letter demanding that
4 RegisterFly immediately send all current, correct and complete RegisterFly Data
5 via electronic means to ICANN (“Final Demand Letter”). ICANN also notified
6 RegisterFly that in accordance with Section 5.3 of the RAA, ICANN was providing
7 further notice of termination of the RAA for RegisterFly’s failure to cure the
8 additional breaches identified in the Second Breach Letter. In response,
9 RegisterFly contacted ICANN and said that it would make an additional data
10 submission by that evening, although RegisterFly later said the data would be
11 delivered by 9:00 a.m. EDT the next morning.

12 33. Though ICANN arranged for a secure transfer of the Data and
13 confirmed the arrangements with RegisterFly, the Data never arrived.

14 **Why the Data is Important**

15 34. Only by having the Data can ICANN attempt to protect RegisterFly’s
16 customers in the event RegisterFly does not (or cannot) protect them. The reason
17 that ICANN is requesting that the Data be updated every 48 hours is that ICANN is
18 concerned that RegisterFly will be making changes to the Data, and ICANN needs
19 to verify that the data is complete, consistent and in the proper format. This will
20 also allow ICANN to monitor the recent requests that RegisterFly customers have
21 made and whether RegisterFly is honoring those requests.

22 35. Each day more RegisterFly customer names expire, registry accounts
23 remain unfunded and transfers are not being completed as required under the
24 Transfer Policy, which is incorporated into the RAA. Without the Data, ICANN
25 has no way to attempt to protect these customers. Without the Data, if RegisterFly
26 goes out of business, ICANN may not even be able to determine who these
27 customers are.
28

1 contract. Neither ICANN nor RegisterFly has been excused from performance of
2 its obligations under the RAA. ICANN is in full compliance with its contractual
3 obligations under the RAA.

4 41. RegisterFly is currently violating at least four sections of the RAA --
5 Sections 3.3, 3.4, 3.6, and 4.1.

6 42. Under Section 3.3 of the RAA, RegisterFly is required to maintain an
7 interactive web page with daily updates concerning all active Registered Names
8 sponsored by the Registrar. RegisterFly has failed to maintain the continuous
9 operability of its web page and has failed to perform the required updates to the
10 publicly available data in violation of Section 3.3.

11 43. Under Section 3.4 of the RAA, RegisterFly is required to maintain
12 electronic records for each active Registered Name it sponsors in its registry.
13 RegisterFly is also required to make those records available to ICANN for
14 inspection at ICANN's request. Despite numerous requests for inspection by
15 ICANN, RegisterFly refused, and continues to refuse, to allow ICANN to inspect
16 and audit the Data, in violation of the contract.

17 44. Section 3.6 of the RAA requires RegisterFly to escrow with ICANN a
18 complete copy of the Data for all names registered with RegisterFly. ICANN has
19 requested a complete copy of all RegisterFly registration Data on numerous
20 occasions in February and March 2007. In violation of Section 3.6, RegisterFly has
21 failed to provide ICANN with this complete electronic copy.

22 45. Under Section 4.1 of the RAA, RegisterFly is required to follow
23 ICANN's Transfer Policy. In violation of this provision, RegisterFly has been
24 ignoring its customers' transfer requests. RegisterFly is failing to effectuate
25 transfers, failing to provide the necessary codes to facilitate transfers, and failing to
26 unlock names to allow for transfers.

27 46. Each of RegisterFly's breaches provides an independent ground for
28 termination of the RAA.

1 54. RegisterFly's continuing flagrant breaches of the RAA have prevented
2 ICANN from obtaining access to critical Data that ICANN needs in order to be able
3 to protect RegisterFly's customers.

4 55. The situation is truly urgent, and failure to act will cause irreparable
5 harm to ICANN and RegisterFly's customers. Any delay in furnishing the
6 complete and accurate Data to ICANN places all of RegisterFly's customers at
7 further risk of losing access to their domain names. RegisterFly is already causing
8 numerous customers to lose domain name registrations due to its ongoing failures
9 to fund Registry accounts.

10 56. Most importantly, if the data is lost, it *can never be recreated*.
11 Additionally, the loss of data would cause potentially *hundreds of thousands* of
12 domain names registered by RegisterFly to become inoperable. RegisterFly's
13 customers would be left with no working domain names, despite paying for them.

14 57. Obtaining the Data, and requiring 48 hour updates on a continuous
15 basis, is the only way ICANN can provide any assurance of continued service to
16 RegisterFly customers. With the data, in the event anything should happen to
17 RegisterFly, or if its servers or the Data were compromised in any way, ICANN
18 will be able to access the Data and assist in restoring its functionality.

19 58. ICANN's sole interest in obtaining access to the Data is to protect
20 RegisterFly's customers. Turning over the Data will not affect RegisterFly's ability
21 to attempt to service its customers. It will not affect RegisterFly's ability to attempt
22 to sell its registration portfolio while it still entitled to do so. It will only fulfill
23 RegisterFly's obligations to ICANN to provide the Data.

24 59. ICANN has a right to obtain this data under the RAA. RegisterFly
25 contractually agreed to the provisions of the RAA, and breached at least four
26 sections of the RAA. RegisterFly's breach of the RAA has caused ICANN to
27 terminate its accreditation effective March 31, 2007.

28

1 60. ICANN also has a right, under Section 3.4.3 of the RAA, to
2 immediately inspect and copy all data at RegisterFly's place of business. ICANN
3 needs immediate access to audit RegisterFly's Data to verify that it has maintained
4 all required data as described at Paragraphs 11-13. Without the ability to
5 immediately inspect RegisterFly's files, ICANN will not be able to verify that
6 RegisterFly is properly and adequately handling all registration-related requests
7 with its customers and the registries and properly maintaining the Data.

8 WHEREFORE, ICANN prays that this Court enter judgment in its favor on
9 each and every claim for relief set forth above and award it relief including, but not
10 limited to, the following:

11 1. A temporary restraining order, followed by such injunctive relief as
12 becomes necessary, to require RegisterFly to provide to ICANN all of the Data that
13 RegisterFly is obligated to provide under the RAA – immediately and on a
14 recurring 48 hour basis;

15 2. A temporary restraining order, followed by such injunctive relief as
16 becomes necessary, to require RegisterFly to allow ICANN immediate access to
17 inspect and copy all Data, in accordance with Section 3.4.3 of the RAA, and further
18 enjoining RegisterFly from preventing ICANN's audit of RegisterFly's Data;

19 3. Enjoining RegisterFly from engaging in any further breach of the
20 RAA;

21 4. Declaring that RegisterFly's RAA with ICANN is terminated as of
22 March 31, 2007;

THE INTERNET CORPORATION
FOR ASSIGNED NAMES AND
NUMBERS

Registrar Accreditation Agreement

821

This REGISTRAR ACCREDITATION AGREEMENT ("Agreement") is by and between the Internet Corporation for Assigned Names and Numbers ("ICANN"), a California non-profit, public benefit corporation, and Top Class Names, Inc., a Delaware Corporation ("Registrar"), and shall be deemed made on September 13, 2004, at Los Angeles, California, USA.

1 DEFINITIONS. For purposes of this Agreement, the following definitions shall apply:

- 1.1 "Accredit" means to identify and set minimum standards for the performance of registration functions, to recognize persons or entities meeting those standards, and to enter into an accreditation agreement that sets forth the rules and procedures applicable to the provision of Registrar Services.
- 1.2 "DNS" refers to the Internet domain-name system.
- 1.3 The "Effective Date" is September 13 2004.
- 1.4 The "Expiration Date" is September 12 2009.
- 1.5 "ICANN" refers to the Internet Corporation for Assigned Names and Numbers, a party to this Agreement.
- 1.6 "Personal Data" refers to data about any identified or identifiable natural person.
- 1.7 "Registered Name" refers to a domain name within the domain of a TLD that is the subject of an appendix to this Agreement, whether consisting of two or more (e.g., john.smith.name) levels, about which a TLD Registry Operator (or an affiliate engaged in providing Registry Services) maintains data in a Registry Database, arranges for such maintenance, or derives revenue from such maintenance. A name in a Registry Database may be a Registered Name even though it does not appear in a zone file (e.g., a registered but inactive name).
- 1.8 "Registered Name Holder" means the holder of a Registered Name.
- 1.9 The word "Registrar," when appearing with an initial capital letter, refers to Top Class Names, Inc., a party to this Agreement.
- 1.10 The word "registrar," when appearing without an initial capital letter, refers to a person or entity that contracts with Registered Name Holders and with a Registry Operator and collects registration data about the Registered Name Holders and submits registration information for entry in the Registry Database.
- 1.11 "Registrar Services" means services provided by a registrar in connection with a TLD as to which it has an agreement with the TLD's Registry Operator, and includes contracting with Registered Name Holders, collecting registration data

about the Registered Name Holders, and submitting registration information for entry in the Registry Database.

- 1.12 "Registry Data" means all Registry Database data maintained in electronic form, and shall include TLD Zone-File Data, all data used to provide Registry Services and submitted by registrars in electronic form, and all other data used to provide Registry Services concerning particular domain name registrations or nameservers maintained in electronic form in a Registry Database.
- 1.13 "Registry Database" means a database comprised of data about one or more DNS domain names within the domain of a registry that is used to generate either DNS resource records that are published authoritatively or responses to domain-name availability lookup requests or Whois queries, for some or all of those names.
- 1.14 A "Registry Operator" is the person or entity then responsible, in accordance with an agreement between ICANN (or its assignee) and that person or entity (those persons or entities) or, if that agreement is terminated or expires, in accordance with an agreement between the US Government and that person or entity (those persons or entities), for providing Registry Services for a specific TLD.
- 1.15 "Registry Services," with respect to a particular TLD, shall have the meaning defined in the agreement between ICANN and the Registry Operator for that TLD.
- 1.16 A Registered Name is "sponsored" by the registrar that placed the record associated with that registration into the registry. Sponsorship of a registration may be changed at the express direction of the Registered Name Holder or, in the event a registrar loses accreditation, in accordance with then-current ICANN specifications and policies.
- 1.17 "Term of this Agreement" begins on the Effective Date and continues to the earlier of (a) the Expiration Date, or (b) termination of this Agreement.
- 1.18 A "TLD" is a top-level domain of the DNS.
- 1.19 "TLD Zone-File Data" means all data contained in a DNS zone file for the registry, or for any subdomain for which Registry Services are provided and that contains Registered Names, as provided to nameservers on the Internet.

2 ICANN OBLIGATIONS.

- 2.1 Accreditation. During the Term of this Agreement, Registrar is hereby accredited by ICANN to act as a registrar (including to insert and renew registration of Registered Names in the Registry Database) for the TLD(s) that are the subject of appendices to this Agreement according to Subsection 5.5.
- 2.2 Registrar Use of ICANN Name and Website. ICANN hereby grants to Registrar a non-exclusive, worldwide, royalty-free license during the Term of this Agreement (a) to state that it is accredited by ICANN as a registrar for each TLD that is the subject of an appendix to this Agreement and (b) to link to pages and documents within the ICANN web site. No other use of ICANN's name or

website is licensed hereby. This license may not be assigned or sublicensed by Registrar.

- 2.3 General Obligations of ICANN. With respect to all matters that impact the rights, obligations, or role of Registrar, ICANN shall during the Term of this Agreement:
- 2.3.1 exercise its responsibilities in an open and transparent manner;
 - 2.3.2 not unreasonably restrain competition and, to the extent feasible, promote and encourage robust competition;
 - 2.3.3 not apply standards, policies, procedures or practices arbitrarily, unjustifiably, or inequitably and not single out Registrar for disparate treatment unless justified by substantial and reasonable cause; and
 - 2.3.4 ensure, through its reconsideration and independent review policies, adequate appeal procedures for Registrar, to the extent it is adversely affected by ICANN standards, policies, procedures or practices.

3 REGISTRAR OBLIGATIONS.

- 3.1 Obligations to Provide Registrar Services. During the Term of this Agreement, Registrar agrees that it will operate as a registrar for each TLD for which it is accredited by ICANN in accordance with this Agreement.
- 3.2 Submission of Registered Name Holder Data to Registry. During the Term of this Agreement:
- 3.2.1 As part of its registration of Registered Names in a TLD as to which it is accredited, Registrar shall submit to, or shall place in the Registry Database operated by, the Registry Operator for the TLD the following data elements:
 - 3.2.1.1 The name of the Registered Name being registered;
 - 3.2.1.2 The IP addresses of the primary nameserver and secondary nameserver(s) for the Registered Name;
 - 3.2.1.3 The corresponding names of those nameservers;
 - 3.2.1.4 Unless automatically generated by the registry system, the identity of the Registrar;
 - 3.2.1.5 Unless automatically generated by the registry system, the expiration date of the registration; and
 - 3.2.1.6 Any other data the Registry Operator requires be submitted to it.

The appendix to this Agreement for a particular TLD may state substitute language for Subsections 3.2.1.1 through 3.2.1.6 as applicable to that TLD; in that event the substitute language shall

replace and supersede Subsections 3.2.1.1 through 3.2.1.6 stated above for all purposes under this Agreement but only with respect to that particular TLD.

3.2.2 Within five (5) business days after receiving any updates from the Registered Name Holder to the data elements listed in Subsections 3.2.1.2, 3.1.2.3, and 3.2.1.6 for any Registered Name Registrar sponsors, Registrar shall submit the updated data elements to, or shall place those elements in the Registry Database operated by the Registry Operator.

3.2.3 In order to allow reconstitution of the Registry Database in the event of an otherwise unrecoverable technical failure or a change in the designated Registry Operator, within ten days of any such request by ICANN, Registrar shall submit an electronic database containing the data elements listed in Subsections 3.2.1.1 through 3.2.1.6 for all active records in the registry sponsored by Registrar, in a format specified by ICANN, to the Registry Operator for the appropriate TLD.

3.3 Public Access to Data on Registered Names. During the Term of this Agreement:

3.3.1 At its expense, Registrar shall provide an interactive web page and a port 43 Whois service providing free public query-based access to up-to-date (i.e., updated at least daily) data concerning all active Registered Names sponsored by Registrar for each TLD for which it is accredited. The data accessible shall consist of elements that are designated from time to time according to an ICANN adopted specification or policy. Until ICANN otherwise specifies by means of an ICANN adopted specification or policy, this data shall consist of the following elements as contained in Registrar's database:

3.3.1.1 The name of the Registered Name;

3.3.1.2 The names of the primary nameserver and secondary nameserver(s) for the Registered Name;

3.3.1.3 The identity of Registrar (which may be provided through Registrar's website);

3.3.1.4 The original creation date of the registration;

3.3.1.5 The expiration date of the registration;

3.3.1.6 The name and postal address of the Registered Name Holder;

3.3.1.7 The name, postal address, e-mail address, voice telephone number, and (where available) fax number of the technical contact for the Registered Name; and

3.3.1.8 The name, postal address, e-mail address, voice telephone number, and (where available) fax number of the administrative contact for the Registered Name.

The appendix to this Agreement for a particular TLD may state substitute language for Subsections 3.3.1.1 through 3.3.1.8 as applicable to that TLD; in that event the substitute language shall replace and supersede Subsections 3.3.1.1 through 3.3.1.8 stated above for all purposes under this Agreement but only with respect to that particular TLD.

- 3.3.2 Upon receiving any updates to the data elements listed in Subsections 3.3.1.2, 3.3.1.3, and 3.3.1.5 through 3.3.1.8 from the Registered Name Holder, Registrar shall promptly update its database used to provide the public access described in Subsection 3.3.1.
- 3.3.3 Registrar may subcontract its obligation to provide the public access described in Subsection 3.3.1 and the updating described in Subsection 3.3.2, provided that Registrar shall remain fully responsible for the proper provision of the access and updating.
- 3.3.4 Registrar shall abide by any ICANN specification or policy established as a Consensus Policy according to Section 4 that requires registrars to cooperatively implement a distributed capability that provides query-based Whois search functionality across all registrars. If the Whois service implemented by registrars does not in a reasonable time provide reasonably robust, reliable, and convenient access to accurate and up-to-date data, the Registrar shall abide by any ICANN specification or policy established as a Consensus Policy according to Section 4 requiring Registrar, if reasonably determined by ICANN to be necessary (considering such possibilities as remedial action by specific registrars), to supply data from Registrar's database to facilitate the development of a centralized Whois database for the purpose of providing comprehensive Registrar Whois search capability.
- 3.3.5 In providing query-based public access to registration data as required by Subsections 3.3.1 and 3.3.4, Registrar shall not impose terms and conditions on use of the data provided, except as permitted by policy established by ICANN. Unless and until ICANN establishes a different policy according to Section 4, Registrar shall permit use of data it provides in response to queries for any lawful purposes except to: (a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass, unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of any Registry Operator or ICANN-Accredited registrar, except as reasonably necessary to register domain names or modify existing registrations.

- 3.3.6 In addition, Registrar shall provide third-party bulk access to the data subject to public access under Subsection 3.3.1 under the following terms and conditions:
- 3.3.6.1 Registrar shall make a complete electronic copy of the data available at least one time per week for download by third parties who have entered into a bulk access agreement with Registrar.
 - 3.3.6.2 Registrar may charge an annual fee, not to exceed US\$10,000, for such bulk access to the data.
 - 3.3.6.3 Registrar's access agreement shall require the third party to agree not to use the data to allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass, unsolicited, commercial advertising or solicitations to entities other than such third party's own existing customers.
 - 3.3.6.4 Registrar's access agreement shall require the third party to agree not to use the data to enable high-volume, automated, electronic processes that send queries or data to the systems of any Registry Operator or ICANN-Accredited registrar, except as reasonably necessary to register domain names or modify existing registrations.
 - 3.3.6.5 Registrar's access agreement may require the third party to agree not to sell or redistribute the data except insofar as it has been incorporated by the third party into a value-added product or service that does not permit the extraction of a substantial portion of the bulk data from the value-added product or service for use by other parties.
 - 3.3.6.6 Registrar may enable Registered Name Holders who are individuals to elect not to have Personal Data concerning their registrations available for bulk access for marketing purposes based on Registrar's "Opt-Out" policy, and if Registrar has such a policy, Registrar shall require the third party to abide by the terms of that Opt-Out policy; provided, however, that Registrar may not use such data subject to opt-out for marketing purposes in its own value-added product or service.
- 3.3.7 Registrar's obligations under Subsection 3.3.6 shall remain in effect until the earlier of (a) replacement of this policy with a different ICANN policy, established according to Section 4, governing bulk access to the data subject to public access under Subsection 3.3.1, or (b) demonstration, to the satisfaction of the United States Department of Commerce, that no individual or entity is able to exercise market

power with respect to registrations or with respect to registration data used for development of value-added products and services by third parties.

- 3.3.8 To comply with applicable statutes and regulations and for other reasons, ICANN may from time to time adopt policies and specifications establishing limits (a) on the Personal Data concerning Registered Names that Registrar may make available to the public through a public-access service described in this Subsection 3.3 and (b) on the manner in which Registrar may make such data available. In the event ICANN adopts any such policy, Registrar shall abide by it.

3.4 Retention of Registered Name Holder and Registration Data.

- 3.4.1 During the Term of this Agreement, Registrar shall maintain its own electronic database, as updated from time to time, containing data for each active Registered Name sponsored by it within each TLD for which it is accredited. The data for each such registration shall include the elements listed in Subsections 3.3.1.1 through 3.3.1.8; the name and (where available) postal address, e-mail address, voice telephone number, and fax number of the billing contact; and any other Registry Data that Registrar has submitted to the Registry Operator or placed in the Registry Database under Subsection 3.2.
- 3.4.2 During the Term of this Agreement and for three years thereafter, Registrar (itself or by its agent(s)) shall maintain the following records relating to its dealings with the Registry Operator(s) and Registered Name Holders:
- 3.4.2.1 In electronic form, the submission date and time, and the content, of all registration data (including updates) submitted in electronic form to the Registry Operator(s);
- 3.4.2.2 In electronic, paper, or microfilm form, all written communications constituting registration applications, confirmations, modifications, or terminations and related correspondence with Registered Name Holders, including registration contracts; and
- 3.4.2.3 In electronic form, records of the accounts of all Registered Name Holders with Registrar, including dates and amounts of all payments and refunds.
- 3.4.3 During the Term of this Agreement and for three years thereafter, Registrar shall make these records available for inspection and copying by ICANN upon reasonable notice. ICANN shall not disclose the content of such records except as expressly permitted by an ICANN specification or policy.

- 3.5 Rights in Data. Registrar disclaims all rights to exclusive ownership or use of the data elements listed in Subsections 3.2.1.1 through 3.2.1.3 for all Registered Names submitted by Registrar to the Registry Database for, or sponsored by Registrar in, each TLD for which it is accredited. Registrar does not disclaim rights in the data elements listed in Subsections 3.2.1.4 through 3.2.1.6 and Subsections 3.3.1.3 through 3.3.1.8 concerning active Registered Names sponsored by it in each TLD for which it is accredited, and agrees to grant non-exclusive, irrevocable, royalty-free licenses to make use of and disclose the data elements listed in Subsections 3.2.1.4 through 3.2.1.6 and 3.3.1.3 through 3.3.1.8 for the purpose of providing a service or services (such as a Whois service under Subsection 3.3.4) providing interactive, query-based public access. Upon a change in sponsorship from Registrar of any Registered Name in a TLD for which it is accredited, Registrar acknowledges that the registrar gaining sponsorship shall have the rights of an owner to the data elements listed in Subsections 3.2.1.4 through 3.2.1.6 and 3.3.1.3 through 3.3.1.8 concerning that Registered Name, with Registrar also retaining the rights of an owner in that data. Nothing in this Subsection prohibits Registrar from (1) restricting bulk public access to data elements in a manner consistent with this Agreement and any ICANN specifications or policies or (2) transferring rights it claims in data elements subject to the provisions of this Subsection.
- 3.6 Data Escrow. During the Term of this Agreement, on a schedule, under the terms, and in the format specified by ICANN, Registrar shall submit an electronic copy of the database described in Subsection 3.4.1 to ICANN or, at Registrar's election and at its expense, to a reputable escrow agent mutually approved by Registrar and ICANN, such approval also not to be unreasonably withheld by either party. The data shall be held under an agreement among Registrar, ICANN, and the escrow agent (if any) providing that (1) the data shall be received and held in escrow, with no use other than verification that the deposited data is complete, consistent, and in proper format, until released to ICANN; (2) the data shall be released from escrow upon expiration without renewal or termination of this Agreement; and (3) ICANN's rights under the escrow agreement shall be assigned with any assignment of this Agreement. The escrow shall provide that in the event the escrow is released under this Subsection, ICANN (or its assignee) shall have a non-exclusive, irrevocable, royalty-free license to exercise (only for transitional purposes) or have exercised all rights necessary to provide Registrar Services.
- 3.7 Business Dealings, Including with Registered Name Holders.
- 3.7.1 In the event ICANN adopts a specification or policy, supported by a consensus of ICANN-Accredited registrars, establishing or approving a Code of Conduct for ICANN-Accredited registrars, Registrar shall abide by that Code.
- 3.7.2 Registrar shall abide by applicable laws and governmental regulations.
- 3.7.3 Registrar shall not represent to any actual or potential Registered Name Holder that Registrar enjoys access to a registry for which

Registrar is Accredited that is superior to that of any other registrar Accredited for that registry.

- 3.7.4 Registrar shall not activate any Registered Name unless and until it is satisfied that it has received a reasonable assurance of payment of its registration fee. For this purpose, a charge to a credit card, general commercial terms extended to creditworthy customers, or other mechanism providing a similar level of assurance of payment shall be sufficient, provided that the obligation to pay becomes final and non-revocable by the Registered Name Holder upon activation of the registration.
- 3.7.5 Registrar shall register Registered Names to Registered Name Holders only for fixed periods. At the conclusion of the registration period, failure by or on behalf of the Registered Name Holder to pay a renewal fee within the time specified in a second notice or reminder shall, in the absence of extenuating circumstances, result in cancellation of the registration. In the event that ICANN adopts a specification or policy concerning procedures for handling expiration of registrations, Registrar shall abide by that specification or policy.
- 3.7.6 Registrar shall not insert or renew any Registered Name in any registry for which Registrar is accredited by ICANN in a manner contrary to an ICANN policy stating a list or specification of excluded Registered Names that is in effect at the time of insertion or renewal.
- 3.7.7 Registrar shall require all Registered Name Holders to enter into an electronic or paper registration agreement with Registrar including at least the following provisions:
 - 3.7.7.1 The Registered Name Holder shall provide to Registrar accurate and reliable contact details and promptly correct and update them during the term of the Registered Name registration, including: the full name, postal address, e-mail address, voice telephone number, and fax number if available of the Registered Name Holder; name of authorized person for contact purposes in the case of an Registered Name Holder that is an organization, association, or corporation; and the data elements listed in Subsections 3.3.1.2, 3.3.1.7 and 3.3.1.8.
 - 3.7.7.2 A Registered Name Holder's willful provision of inaccurate or unreliable information, its willful failure promptly to update information provided to Registrar, or its failure to respond for over fifteen calendar days to inquiries by Registrar concerning the accuracy of contact details associated with the Registered Name Holder's registration shall constitute a material breach of the Registered Name

Holder-registrar contract and be a basis for cancellation of the Registered Name registration.

- 3.7.7.3 Any Registered Name Holder that intends to license use of a domain name to a third party is nonetheless the Registered Name Holder of record and is responsible for providing its own full contact information and for providing and updating accurate technical and administrative contact information adequate to facilitate timely resolution of any problems that arise in connection with the Registered Name. A Registered Name Holder licensing use of a Registered Name according to this provision shall accept liability for harm caused by wrongful use of the Registered Name, unless it promptly discloses the identity of the licensee to a party providing the Registered Name Holder reasonable evidence of actionable harm.
- 3.7.7.4 Registrar shall provide notice to each new or renewed Registered Name Holder stating:
 - 3.7.7.4.1 The purposes for which any Personal Data collected from the applicant are intended;
 - 3.7.7.4.2 The intended recipients or categories of recipients of the data (including the Registry Operator and others who will receive the data from Registry Operator);
 - 3.7.7.4.3 Which data are obligatory and which data, if any, are voluntary; and
 - 3.7.7.4.4 How the Registered Name Holder or data subject can access and, if necessary, rectify the data held about them.
- 3.7.7.5 The Registered Name Holder shall consent to the data processing referred to in Subsection 3.7.7.4.
- 3.7.7.6 The Registered Name Holder shall represent that notice has been provided equivalent to that described in Subsection 3.7.7.4 to any third-party individuals whose Personal Data are supplied to Registrar by the Registered Name Holder, and that the Registered Name Holder has obtained consent equivalent to that referred to in Subsection 3.7.7.5 of any such third-party individuals.
- 3.7.7.7 Registrar shall agree that it will not process the Personal Data collected from the Registered Name Holder in a way incompatible with the purposes and other limitations about

which it has provided notice to the Registered Name Holder in accordance with Subsection 3.7.7.4 above.

- 3.7.7.8 Registrar shall agree that it will take reasonable precautions to protect Personal Data from loss, misuse, unauthorized access or disclosure, alteration, or destruction.
 - 3.7.7.9 The Registered Name Holder shall represent that, to the best of the Registered Name Holder's knowledge and belief, neither the registration of the Registered Name nor the manner in which it is directly or indirectly used infringes the legal rights of any third party.
 - 3.7.7.10 For the adjudication of disputes concerning or arising from use of the Registered Name, the Registered Name Holder shall submit, without prejudice to other potentially applicable jurisdictions, to the jurisdiction of the courts (1) of the Registered Name Holder's domicile and (2) where Registrar is located.
 - 3.7.7.11 The Registered Name Holder shall agree that its registration of the Registered Name shall be subject to suspension, cancellation, or transfer pursuant to any ICANN adopted specification or policy, or pursuant to any registrar or registry procedure not inconsistent with an ICANN adopted specification or policy, (1) to correct mistakes by Registrar or the Registry Operator in registering the name or (2) for the resolution of disputes concerning the Registered Name.
 - 3.7.7.12 The Registered Name Holder shall indemnify and hold harmless the Registry Operator and its directors, officers, employees, and agents from and against any and all claims, damages, liabilities, costs, and expenses (including reasonable legal fees and expenses) arising out of or related to the Registered Name Holder's domain name registration.
- 3.7.8 Registrar shall abide by any specifications or policies established according to Section 4 requiring reasonable and commercially practicable (a) verification, at the time of registration, of contact information associated with a Registered Name sponsored by Registrar or (b) periodic re-verification of such information. Registrar shall, upon notification by any person of an inaccuracy in the contact information associated with a Registered Name sponsored by Registrar, take reasonable steps to investigate that claimed inaccuracy. In the event Registrar learns of inaccurate contact

information associated with a Registered Name it sponsors, it shall take reasonable steps to correct that inaccuracy.

- 3.7.9 Registrar shall abide by any ICANN adopted specifications or policies prohibiting or restricting warehousing of or speculation in domain names by registrars.
- 3.7.10 Nothing in this Agreement prescribes or limits the amount Registrar may charge Registered Name Holders for registration of Registered Names.
- 3.8 Domain-Name Dispute Resolution. During the Term of this Agreement, Registrar shall have in place a policy and procedures for resolution of disputes concerning Registered Names. Until different policies and procedures are established by ICANN under Section 4, Registrar shall comply with the Uniform Domain Name Dispute Resolution Policy identified on ICANN's website (www.icann.org/general/consensus-policies.htm).
- 3.9 Accreditation Fees. As a condition of accreditation, Registrar shall pay accreditation fees to ICANN. These fees consist of yearly and variable fees.
 - 3.9.1 Yearly Accreditation Fee. Registrar shall pay ICANN a yearly accreditation fee in an amount established by the ICANN Board of Directors, in conformity with ICANN's bylaws and articles of incorporation. This yearly accreditation fee shall not exceed US\$4,000 for the first TLD for which Registrar is Accredited plus US\$500 for each additional TLD for which Registrar is Accredited at any time during the year. Payment of the yearly fee shall be due within thirty days after invoice from ICANN.
 - 3.9.2 Variable Accreditation Fee. Registrar shall pay the variable accreditation fees established by the ICANN Board of Directors, in conformity with ICANN's bylaws and articles of incorporation, provided that in each case such fees are reasonably allocated among all registrars that contract with ICANN and that any such fees must be expressly approved by registrars accounting, in the aggregate, for payment of two-thirds of all registrar-level fees. Registrar shall pay such fees in a timely manner for so long as all material terms of this Agreement remain in full force and effect, and notwithstanding the pendency of any dispute between Registrar and ICANN.
 - 3.9.3 On reasonable notice given by ICANN to Registrar, accountings submitted by Registrar shall be subject to verification by an audit of Registrar's books and records by an independent third-party that shall preserve the confidentiality of such books and records (other than its findings as to the accuracy of, and any necessary corrections to, the accountings).

- 3.10 Insurance. Registrar shall maintain in force commercial general liability insurance with policy limits of at least US\$500,000 covering liabilities arising from Registrar's registrar business during the term of this Agreement.

4 PROCEDURES FOR ESTABLISHMENT OR REVISION OF SPECIFICATIONS AND POLICIES.

- 4.1 Registrar's Ongoing Obligation to Comply With New or Revised Specifications and Policies. During the Term of this Agreement, Registrar shall comply with the terms of this Agreement on the schedule set forth in Subsection 4.4, with
- 4.1.1 new or revised specifications (including forms of agreement to which Registrar is a party) and policies established by ICANN as Consensus Policies in the manner described in Subsection 4.3,
 - 4.1.2 in cases where:
 - 4.1.2.1 this Agreement expressly provides for compliance with revised specifications or policies established in the manner set forth in one or more subsections of this Section 4; or
 - 4.1.2.2 the specification or policy concerns one or more topics described in Subsection 4.2.
- 4.2 Topics for New and Revised Specifications and Policies. New and revised specifications and policies may be established on the following topics:
- 4.2.1 issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, technical reliability, and/or operational stability of Registrar Services, Registry Services, the DNS, or the Internet;
 - 4.2.2 registrar policies reasonably necessary to implement ICANN policies or specifications relating to a DNS registry or to Registry Services;
 - 4.2.3 resolution of disputes concerning the registration of Registered Names (as opposed to the use of such domain names), including where the policies take into account use of the domain names;
 - 4.2.4 principles for allocation of Registered Names (e.g., first-come/first-served, timely renewal, holding period after expiration);
 - 4.2.5 prohibitions on warehousing of or speculation in domain names by registries or registrars;
 - 4.2.6 maintenance of and access to accurate and up-to-date contact information regarding Registered Names and nameservers;
 - 4.2.7 reservation of Registered Names that may not be registered initially or that may not be renewed due to reasons reasonably related to (a) avoidance of confusion among or misleading of users, (b) intellectual

property, or (c) the technical management of the DNS or the Internet (e.g., "example.com" and names with single-letter/digit labels);

- 4.2.8 procedures to avoid disruptions of registration due to suspension or termination of operations by a registry operator or a registrar, including allocation of responsibility among continuing registrars of the Registered Names sponsored in a TLD by a registrar losing accreditation; and
- 4.2.9 the transfer of registration data upon a change in registrar sponsoring one or more Registered Names.

Nothing in this Subsection 4.2 shall limit Registrar's obligations as set forth elsewhere in this Agreement.

4.3 Manner of Establishment of New and Revised Specifications and Policies.

- 4.3.1 "Consensus Policies" are those specifications or policies established based on a consensus among Internet stakeholders represented in the ICANN process, as demonstrated by (a) action of the ICANN Board of Directors establishing the specification or policy, (b) a recommendation, adopted by at least a two-thirds vote of the council of the ICANN Supporting Organization to which the matter is delegated, that the specification or policy should be established, and (c) a written report and supporting materials (which must include all substantive submissions to the Supporting Organization relating to the proposal) that (i) documents the extent of agreement and disagreement among impacted groups, (ii) documents the outreach process used to seek to achieve adequate representation of the views of groups that are likely to be impacted, and (iii) documents the nature and intensity of reasoned support and opposition to the proposed policy.
- 4.3.2 In the event that Registrar disputes the presence of such a consensus, it shall seek review of that issue from an Independent Review Panel established under ICANN's bylaws. Such review must be sought within fifteen working days of the publication of the Board's action establishing the policy. The decision of the panel shall be based on the report and supporting materials required by Subsection 4.3.1. In the event that Registrar seeks review and the Independent Review Panel sustains the Board's determination that the policy is based on a consensus among Internet stakeholders represented in the ICANN process, then Registrar must implement such policy unless it promptly seeks and obtains a stay or injunctive relief under Subsection 5.6.
- 4.3.3 If, following a decision by the Independent Review Panel convened under Subsection 4.3.2, Registrar still disputes the presence of such a consensus, it may seek further review of that issue within fifteen

working days of publication of the decision in accordance with the dispute resolution procedures set forth in Subsection 5.6; provided, however, that Registrar must continue to implement the policy unless it has obtained a stay or injunctive relief under Subsection 5.6 or a final decision is rendered in accordance with the provisions of Subsection 5.6 that relieves Registrar of such obligation. The decision in any such further review shall be based on the report and supporting materials required by Subsection 4.3.1.

- 4.3.4 A specification or policy established by the ICANN Board of Directors on a temporary basis, without a prior recommendation by the council of an ICANN Supporting Organization, shall also be considered to be a Consensus Policy if adopted by the ICANN Board of Directors by a vote of at least two-thirds of its members, so long as the Board reasonably determines that immediate temporary establishment of a specification or policy on the subject is necessary to maintain the operational stability of Registrar Services, Registry Services, the DNS, or the Internet, and that the proposed specification or policy is as narrowly tailored as feasible to achieve those objectives. In establishing any specification or policy under this provision, the ICANN Board of Directors shall state the period of time for which the specification or policy is temporarily adopted and shall immediately refer the matter to the appropriate Supporting Organization for its evaluation and review with a detailed explanation of its reasons for establishing the temporary specification or policy and why the Board believes the policy should receive the consensus support of Internet stakeholders. If the period of time for which the specification or policy is adopted exceeds ninety days, the Board shall reaffirm its temporary establishment every ninety days for a total period not to exceed one year, in order to maintain such specification or policy in effect until such time as it meets the standard set forth in Subsection 4.3.1. If the standard set forth in Subsection 4.3.1 is not met within the temporary period set by the Board, or the council of the Supporting Organization to which it has been referred votes to reject the temporary specification or policy, it will no longer be a "Consensus Policy."
- 4.3.5 For all purposes under this Agreement, the policies specifically identified by ICANN on its website (www.icann.org/general/consensus-policies.htm) at the date of this Agreement as having been adopted by the ICANN Board of Directors before the date of this Agreement shall be treated in the same manner and have the same effect as "Consensus Policies" and accordingly shall not be subject to review under Subsection 4.3.2.
- 4.3.6 In the event that, at the time the ICANN Board of Directors establishes a specification or policy under Subsection 4.3.1 during the Term of this Agreement, ICANN does not have in place an Independent Review Panel established under ICANN's bylaws, the fifteen-working-day period allowed under Subsection 4.3.2 to seek review shall be

extended until fifteen working days after ICANN does have such an Independent Review Panel in place and Registrar shall not be obligated to comply with the specification or policy in the interim.

- 4.4 Time Allowed for Compliance. Registrar shall be afforded a reasonable period of time after receiving notice of the establishment of a specification or policy under Subsection 4.3 in which to comply with that specification or policy, taking into account any urgency involved.

5 MISCELLANEOUS PROVISIONS.

- 5.1 Specific Performance. While this Agreement is in effect, either party may seek specific performance of any provision of this Agreement in the manner provided in Section 5.6 below, provided the party seeking such performance is not in material breach of its obligations.
- 5.2 Termination of Agreement by Registrar. This Agreement may be terminated before its expiration by Registrar by giving ICANN thirty days written notice. Upon such termination by Registrar, Registrar shall not be entitled to any refund of fees paid to ICANN pursuant to this Agreement.
- 5.3 Termination of Agreement by ICANN. This Agreement may be terminated before its expiration by ICANN in any of the following circumstances:
- 5.3.1 There was a material misrepresentation, material inaccuracy, or materially misleading statement in Registrar's application for accreditation or any material accompanying the application.
- 5.3.2 Registrar:
- 5.3.2.1 is convicted by a court of competent jurisdiction of a felony or other serious offense related to financial activities, or is judged by a court of competent jurisdiction to have committed fraud or breach of fiduciary duty, or is the subject of a judicial determination that ICANN reasonably deems as the substantive equivalent of those offenses; or
- 5.3.2.2 is disciplined by the government of its domicile for conduct involving dishonesty or misuse of funds of others.
- 5.3.3 Any officer or director of Registrar is convicted of a felony or of a misdemeanor related to financial activities, or is judged by a court to have committed fraud or breach of fiduciary duty, or is the subject of a judicial determination that ICANN deems as the substantive equivalent of any of these; provided, such officer or director is not removed in such circumstances.
- 5.3.4 Registrar fails to cure any breach of this Agreement (other than a failure to comply with a policy adopted by ICANN during the term of this Agreement as to which Registrar is seeking, or still has time to seek, review under Subsection 4.3.2 of whether a consensus is

present) within fifteen working days after ICANN gives Registrar notice of the breach.

- 5.3.5 Registrar fails to comply with a ruling granting specific performance under Subsections 5.1 and 5.6.
- 5.3.6 Registrar continues acting in a manner that ICANN has reasonably determined endangers the stability or operational integrity of the Internet after receiving three days notice of that determination.
- 5.3.7 Registrar becomes bankrupt or insolvent.

This Agreement may be terminated in circumstances described in Subsections 5.3.1 – 5.3.6 above only upon fifteen days written notice to Registrar (in the case of Subsection 5.3.4 occurring after Registrar's failure to cure), with Registrar being given an opportunity during that time to initiate arbitration under Subsection 5.6 to determine the appropriateness of termination under this Agreement. In the event Registrar initiates litigation or arbitration concerning the appropriateness of termination by ICANN, the termination shall be stayed an additional thirty days to allow Registrar to obtain a stay of termination under Subsection 5.6 below. If Registrar acts in a manner that ICANN reasonably determines endangers the stability or operational integrity of the Internet and upon notice does not immediately cure, ICANN may suspend this Agreement for five working days pending ICANN's application for more extended specific performance or injunctive relief under Subsection 5.6. This Agreement may be terminated immediately upon notice to Registrar in circumstance described in Subsection 5.3.7 above.

- 5.4 Term of Agreement; Renewal; Right to Substitute Updated Agreement. This Agreement shall be effective on the Effective Date and shall have an initial term running until the Expiration Date, unless sooner terminated. Thereafter, if Registrar seeks to continue its accreditation, it may apply for renewed accreditation, and shall be entitled to renewal provided it meets the ICANN-adopted specification or policy on accreditation criteria then in effect, is in compliance with its obligations under this Agreement, as it may be amended, and agrees to be bound by terms and conditions of the then-current Registrar accreditation agreement (which may differ from those of this Agreement) that ICANN adopts in accordance with Subsection 2.3 and Subsection 4.3. In connection with renewed accreditation, Registrar shall confirm its assent to the terms and conditions of the then-current Registrar accreditation agreement by signing that accreditation agreement. In the event that, during the Term of this Agreement, ICANN posts on its web site an updated form of registrar accreditation agreement applicable to Accredited registrars, Registrar (provided it has not received (1) a notice of breach that it has not cured or (2) a notice of termination of this Agreement under Subsection 5.3 above) may elect, by giving ICANN written notice, to enter an agreement in the updated form in place of this Agreement. In the event of such election, Registrar and ICANN shall promptly sign a new accreditation agreement that contains the provisions of the updated form posted on the web site, with the length of the term of the substituted

agreement as stated in the updated form posted on the web site, calculated as if it commenced on the date this Agreement was made, and this Agreement will be deemed terminated.

- 5.5 Addition or Deletion of TLDs for Which Registrar Accredited. On the Effective Date, Registrar shall be accredited according to Subsection 2.1 for each TLD as to which an appendix executed by both parties is attached to this Agreement. During the Term of this Agreement, Registrar may request accreditation for any additional TLD(s) by signing an additional appendix for each additional TLD in the form prescribed by ICANN and submitting the appendix to ICANN. In the event ICANN agrees to the request, ICANN will sign the additional appendix and return a copy of it to Registrar. The mutually signed appendix shall thereafter be an appendix to this Agreement. During the Term of this Agreement, Registrar may abandon its accreditation for any TLD under this Agreement (provided that Registrar will thereafter remain accredited for at least one TLD under this Agreement) by giving ICANN written notice specifying the TLD as to which accreditation is being abandoned. The abandonment shall be effective thirty days after the notice is given.
- 5.6 Resolution of Disputes Under this Agreement. Disputes arising under or in connection with this Agreement, including (1) disputes arising from ICANN's failure to renew Registrar's accreditation and (2) requests for specific performance, shall be resolved in a court of competent jurisdiction or, at the election of either party, by an arbitration conducted as provided in this Subsection 5.6 pursuant to the International Arbitration Rules of the American Arbitration Association ("AAA"). The arbitration shall be conducted in English and shall occur in Los Angeles County, California, USA. There shall be three arbitrators: each party shall choose one arbitrator and, if those two arbitrators do not agree on a third arbitrator, the third shall be chosen by the AAA. The parties shall bear the costs of the arbitration in equal shares, subject to the right of the arbitrators to reallocate the costs in their award as provided in the AAA rules. The parties shall bear their own attorneys' fees in connection with the arbitration, and the arbitrators may not reallocate the attorneys' fees in conjunction with their award. The arbitrators shall render their decision within ninety days of the conclusion of the arbitration hearing. In the event Registrar initiates arbitration to contest the appropriateness of termination of this Agreement by ICANN, Registrar may at the same time request that the arbitration panel stay the termination until the arbitration decision is rendered, and that request shall have the effect of staying the termination until the arbitration panel has granted an ICANN request for specific performance and Registrar has failed to comply with such ruling. In the event Registrar initiates arbitration to contest an Independent Review Panel's decision under Subsection 4.3.3 sustaining the Board's determination that a specification or policy is supported by consensus, Registrar may at the same time request that the arbitration panel stay the requirement that it comply with the policy until the arbitration decision is rendered, and that request shall have the effect of staying the requirement until the decision or until the arbitration panel has granted an ICANN request for lifting of the stay. In all litigation involving ICANN concerning this Agreement (whether in a case where arbitration has not been elected or to enforce an arbitration award), jurisdiction

and exclusive venue for such litigation shall be in a court located in Los Angeles, California, USA; however, the parties shall also have the right to enforce a judgment of such a court in any court of competent jurisdiction. For the purpose of aiding the arbitration and/or preserving the rights of the parties during the pendency of an arbitration, the parties shall have the right to seek temporary or preliminary injunctive relief from the arbitration panel or in a court located in Los Angeles, California, USA, which shall not be a waiver of this arbitration agreement.

- 5.7 Limitations on Monetary Remedies for Violations of this Agreement. ICANN's aggregate monetary liability for violations of this Agreement shall not exceed the amount of accreditation fees paid by Registrar to ICANN under Subsection 3.9 of this Agreement. Registrar's monetary liability to ICANN for violations of this Agreement shall be limited to accreditation fees owing to ICANN under this Agreement. In no event shall either party be liable for special, indirect, incidental, punitive, exemplary, or consequential damages for any violation of this Agreement.
- 5.8 Handling by ICANN of Registrar-Supplied Data. Before receiving any Personal Data from Registrar, ICANN shall specify to Registrar in writing the purposes for and conditions under which ICANN intends to use the Personal Data. ICANN may from time to time provide Registrar with a revised specification of such purposes and conditions, which specification shall become effective no fewer than thirty days after it is provided to Registrar. ICANN shall not use Personal Data provided by Registrar for a purpose or under conditions inconsistent with the specification in effect when the Personal Data was provided. ICANN shall take reasonable steps to avoid uses of the Personal Data by third parties inconsistent with the specification.
- 5.9 Assignment. Either party may assign or transfer this Agreement only with the prior written consent of the other party, which shall not be unreasonably withheld, except that ICANN may, with the written approval of the United States Department of Commerce, assign this agreement by giving Registrar written notice of the assignment. In the event of assignment by ICANN, the assignee may, with the approval of the United States Department of Commerce, revise the definition of "Consensus Policy" to the extent necessary to meet the organizational circumstances of the assignee, provided the revised definition requires that Consensus Policies be based on a demonstrated consensus of Internet stakeholders.
- 5.10 No Third-Party Beneficiaries. This Agreement shall not be construed to create any obligation by either ICANN or Registrar to any non-party to this Agreement, including any Registered Name Holder.
- 5.11 Notices, Designations, and Specifications. All notices to be given under this Agreement shall be given in writing at the address of the appropriate party as set forth below, unless that party has given a notice of change of address in writing. Any notice required by this Agreement shall be deemed to have been properly given when delivered in person, when sent by electronic facsimile with receipt of confirmation of delivery, or when scheduled for delivery by internationally

recognized courier service. Designations and specifications by ICANN under this Agreement shall be effective when written notice of them is deemed given to Registrar.

If to ICANN, addressed to:

Internet Corporation for Assigned Names and Numbers
Registrar Accreditation
4676 Admiralty Way, Suite 330
Marina del Rey, California 90292 USA
Attention: General Counsel
Telephone: 1/310/823-9358
Facsimile: 1/310/823-8649

If to Registrar, addressed to:

Top Class Names, Inc.
a Delaware Corporation
150 West Maynard, Apt. 1K
Columbus, Ohio 43202
USA

Attention: Bhavin Turakhia

e-mail: info@topclassnames.com

- 5.12 Dates and Times. All dates and times relevant to this Agreement or its performance shall be computed based on the date and time observed in Los Angeles, California, USA.
- 5.13 Language. All notices, designations, and specifications made under this Agreement shall be in the English language.
- 5.14 Amendments and Waivers. No amendment, supplement, or modification of this Agreement or any provision hereof shall be binding unless executed in writing by both parties. No waiver of any provision of this Agreement shall be binding unless evidenced by a writing signed by the party waiving compliance with such provision. No waiver of any of the provisions of this Agreement shall be deemed or shall constitute a waiver of any other provision hereof, nor shall any such waiver constitute a continuing waiver unless otherwise expressly provided.
- 5.15 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
- 5.16 Entire Agreement. Except to the extent (a) expressly provided in a written agreement executed by both parties concurrently herewith or (b) of written assurances provided by Registrar to ICANN in connection with its Accreditation, this Agreement (including the appendices, which form part of it) constitutes the

entire agreement of the parties pertaining to the accreditation of Registrar and supersedes all prior agreements, understandings, negotiations and discussions, whether oral or written, between the parties on that subject.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed in duplicate by their duly authorized representatives.

Registrar Accreditation Agreement

This REGISTRAR ACCREDITATION AGREEMENT ("Agreement") is by and between the Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation, and [Registrar Name], a [Organization type and jurisdiction] ("Registrar"), and shall be deemed made on _____, at Los Angeles, California, USA.

1. DEFINITIONS. For purposes of this Agreement, the following definitions shall apply:

1.1 "Accredit" means to identify and set minimum standards for the performance of registration functions, to recognize persons or entities meeting those standards, and to enter into an accreditation agreement that sets forth the rules and procedures applicable to the provision of Registrar Services.

1.2 "DNS" refers to the Internet domain-name system.

1.3 The "Effective Date" is _____.

1.4 The "Expiration Date" is _____.

1.5 "ICANN" refers to the Internet Corporation for Assigned Names and Numbers, a party to this Agreement.

1.6 "Personal Data" refers to data about any identified or identifiable natural person.

1.7 "Registered Name" refers to a domain name within the domain of a TLD that is the subject of an appendix to this Agreement, whether consisting of two or more (e.g., john.smith.name) levels, about which a TLD Registry Operator (or an affiliate engaged in providing Registry Services) maintains data in a Registry Database, arranges for such maintenance, or derives revenue from such maintenance. A name in a Registry Database may be a Registered Name even though it does not appear in a zone file (e.g., a registered but inactive name).

1.8 "Registered Name Holder" means the holder of a Registered Name.

1.9 The word "Registrar," when appearing with an initial capital letter, refers to [Registrar Name], a party to this Agreement.

1.10 The word "registrar," when appearing without an initial capital letter, refers to a person or entity that contracts with Registered Name Holders and with a Registry Operator and collects registration data about the Registered Name Holders and submits registration information for entry in the Registry Database.

1.11 "Registrar Services" means services provided by a registrar in connection with a TLD as to which it has an agreement with the TLD's Registry Operator, and includes contracting with Registered Name Holders, collecting registration data about the Registered Name Holders, and submitting registration information for entry in the Registry Database.

1.12 "Registry Data" means all Registry Database data maintained in electronic form, and shall include TLD Zone-File Data, all data used to provide Registry Services and submitted by registrars in electronic form, and all other data used to provide Registry Services concerning particular domain name registrations or nameservers maintained in electronic form in a Registry Database.

1.13 "Registry Database" means a database comprised of data about one or more DNS domain names within the domain of a registry that is used to generate either DNS resource records that are published authoritatively or responses to domain-name availability lookup requests or Whois queries, for some or all of those names.

1.14 A "Registry Operator" is the person or entity then responsible, in accordance with an agreement between ICANN (or its assignee) and that person or entity (those persons or entities) or, if that agreement is terminated or expires, in accordance with an agreement between the US Government and that person or entity (those persons or entities), for providing Registry Services for a specific TLD.

1.15 "Registry Services," with respect to a particular TLD, shall have the meaning defined in the agreement between ICANN and the Registry Operator for that TLD.

1.16 A Registered Name is "sponsored" by the registrar that placed the record associated with that registration into the registry. Sponsorship of a registration may be changed at the express direction of the Registered Name Holder or, in the event a registrar loses accreditation, in accordance with then-current ICANN specifications and policies.

1.17 "Term of this Agreement" begins on the Effective Date and continues to the earlier of (a) the Expiration Date, or (b) termination of this Agreement.

1.18 A "TLD" is a top-level domain of the DNS.

1.19 "TLD Zone-File Data" means all data contained in a DNS zone file for the registry, or for any subdomain for which Registry Services are provided and that contains Registered Names, as provided to nameservers on the Internet.

2. ICANN OBLIGATIONS.

2.1 Accreditation. During the Term of this Agreement, Registrar is hereby accredited by ICANN to act as a registrar (including to insert and renew registration of Registered Names in the Registry Database) for the TLD(s) that are the subject of appendices to this Agreement according to Subsection 5.5.

2.2 Registrar Use of ICANN Name and Website. ICANN hereby grants to Registrar a non-exclusive, worldwide, royalty-free license during the Term of this Agreement (a) to state that it is accredited by ICANN as a registrar for each TLD that is the subject of an appendix to this Agreement and (b) to link to pages and documents within the ICANN web site. No other use of ICANN's name or website is licensed hereby. This license may not be assigned or sublicensed by Registrar.

2.3 General Obligations of ICANN. With respect to all matters that impact the rights, obligations, or role of Registrar, ICANN shall during the Term of this Agreement:

2.3.1 exercise its responsibilities in an open and transparent manner;

2.3.2 not unreasonably restrain competition and, to the extent feasible, promote and encourage robust competition;

2.3.3 not apply standards, policies, procedures or practices arbitrarily, unjustifiably, or inequitably and not single out Registrar for disparate treatment unless justified by substantial and reasonable cause; and

2.3.4 ensure, through its reconsideration and independent review policies, adequate appeal procedures for Registrar, to the extent it is adversely affected by ICANN standards, policies, procedures or practices.

3. REGISTRAR OBLIGATIONS.

3.1 Obligations to Provide Registrar Services. During the Term of this Agreement, Registrar agrees that it will operate as a registrar for each TLD for which it is accredited by ICANN in accordance with this Agreement.

3.2 Submission of Registered Name Holder Data to Registry. During the Term of this Agreement:

3.2.1 As part of its registration of Registered Names in a TLD as to which it is accredited, Registrar shall submit to, or shall place in

the Registry Database operated by, the Registry Operator for the TLD the following data elements:

- 3.2.1.1 The name of the Registered Name being registered;
- 3.2.1.2 The IP addresses of the primary nameserver and secondary nameserver(s) for the Registered Name;
- 3.2.1.3 The corresponding names of those nameservers;
- 3.2.1.4 Unless automatically generated by the registry system, the identity of the Registrar;
- 3.2.1.5 Unless automatically generated by the registry system, the expiration date of the registration; and
- 3.2.1.6 Any other data the Registry Operator requires be submitted to it.

The appendix to this Agreement for a particular TLD may state substitute language for Subsections 3.2.1.1 through 3.2.1.6 as applicable to that TLD; in that event the substitute language shall replace and supersede Subsections 3.2.1.1 through 3.2.1.6 stated above for all purposes under this Agreement but only with respect to that particular TLD.

3.2.2 Within five (5) business days after receiving any updates from the Registered Name Holder to the data elements listed in Subsections 3.2.1.2, 3.1.2.3, and 3.2.1.6 for any Registered Name Registrar sponsors, Registrar shall submit the updated data elements to, or shall place those elements in the Registry Database operated by the Registry Operator.

3.2.3 In order to allow reconstitution of the Registry Database in the event of an otherwise unrecoverable technical failure or a change in the designated Registry Operator, within ten days of any such request by ICANN, Registrar shall submit an electronic database containing the data elements listed in Subsections 3.2.1.1 through 3.2.1.6 for all active records in the registry sponsored by Registrar, in a format specified by ICANN, to the Registry Operator for the appropriate TLD.

3.3 Public Access to Data on Registered Names. During the Term of this Agreement:

3.3.1 At its expense, Registrar shall provide an interactive web page and a port 43 Whois service providing free public query-

based access to up-to-date (i.e., updated at least daily) data concerning all active Registered Names sponsored by Registrar for each TLD in which it is accredited. The data accessible shall consist of elements that are designated from time to time according to an ICANN adopted specification or policy. Until ICANN otherwise specifies by means of an ICANN adopted specification or policy, this data shall consist of the following elements as contained in Registrar's database:

3.3.1.1 The name of the Registered Name;

3.3.1.2 The names of the primary nameserver and secondary nameserver(s) for the Registered Name;

3.3.1.3 The identity of Registrar (which may be provided through Registrar's website);

3.3.1.4 The original creation date of the registration;

3.3.1.5 The expiration date of the registration;

3.3.1.6 The name and postal address of the Registered Name Holder;

3.3.1.7 The name, postal address, e-mail address, voice telephone number, and (where available) fax number of the technical contact for the Registered Name; and

3.3.1.8 The name, postal address, e-mail address, voice telephone number, and (where available) fax number of the administrative contact for the Registered Name.

The appendix to this Agreement for a particular TLD may state substitute language for Subsections 3.3.1.1 through 3.3.1.8 as applicable to that TLD; in that event the substitute language shall replace and supersede Subsections 3.3.1.1 through 3.3.1.8 stated above for all purposes under this Agreement but only with respect to that particular TLD.

3.3.2 Upon receiving any updates to the data elements listed in Subsections 3.3.1.2, 3.3.1.3, and 3.3.1.5 through 3.3.1.8 from the Registered Name Holder, Registrar shall promptly update its database used to provide the public access described in Subsection 3.3.1.

3.3.3 Registrar may subcontract its obligation to provide the public access described in Subsection 3.3.1 and the updating described in Subsection 3.3.2, provided that Registrar shall remain fully

responsible for the proper provision of the access and updating.

3.3.4 Registrar shall abide by any ICANN specification or policy established as a Consensus Policy according to Section 4 that requires registrars to cooperatively implement a distributed capability that provides query-based Whois search functionality across all registrars. If the Whois service implemented by registrars does not in a reasonable time provide reasonably robust, reliable, and convenient access to accurate and up-to-date data, the Registrar shall abide by any ICANN specification or policy established as a Consensus Policy according to Section 4 requiring Registrar, if reasonably determined by ICANN to be necessary (considering such possibilities as remedial action by specific registrars), to supply data from Registrar's database to facilitate the development of a centralized Whois database for the purpose of providing comprehensive Registrar Whois search capability.

3.3.5 In providing query-based public access to registration data as required by Subsections 3.3.1 and 3.3.4, Registrar shall not impose terms and conditions on use of the data provided, except as permitted by policy established by ICANN. Unless and until ICANN establishes a different policy according to Section 4, Registrar shall permit use of data it provides in response to queries for any lawful purposes except to: (a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass, unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of any Registry Operator or ICANN-Accredited registrar, except as reasonably necessary to register domain names or modify existing registrations.

3.3.6 In addition, Registrar shall provide third-party bulk access to the data subject to public access under Subsection 3.3.1 under the following terms and conditions:

3.3.6.1 Registrar shall make a complete electronic copy of the data available at least one time per week for download by third parties who have entered into a bulk access agreement with Registrar.

3.3.6.2 Registrar may charge an annual fee, not to exceed US\$10,000, for such bulk access to the data.

3.3.6.3 Registrar's access agreement shall require the third party to agree not to use the data to allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass, unsolicited, commercial advertising or solicitations to entities other

than such third party's own existing customers.

3.3.6.4 Registrar's access agreement shall require the third party to agree not to use the data to enable high-volume, automated, electronic processes that send queries or data to the systems of any Registry Operator or ICANN-Accredited registrar, except as reasonably necessary to register domain names or modify existing registrations.

3.3.6.5 Registrar's access agreement may require the third party to agree not to sell or redistribute the data except insofar as it has been incorporated by the third party into a value-added product or service that does not permit the extraction of a substantial portion of the bulk data from the value-added product or service for use by other parties.

3.3.6.6 Registrar may enable Registered Name Holders who are individuals to elect not to have Personal Data concerning their registrations available for bulk access for marketing purposes based on Registrar's "Opt-Out" policy, and if Registrar has such a policy, Registrar shall require the third party to abide by the terms of that Opt-Out policy; provided, however, that Registrar may not use such data subject to opt-out for marketing purposes in its own value-added product or service.

3.3.7 Registrar's obligations under Subsection 3.3.6 shall remain in effect until the earlier of (a) replacement of this policy with a different ICANN policy, established according to Section 4, governing bulk access to the data subject to public access under Subsection 3.3.1, or (b) demonstration, to the satisfaction of the United States Department of Commerce, that no individual or entity is able to exercise market power with respect to registrations or with respect to registration data used for development of value-added products and services by third parties.

3.3.8 To comply with applicable statutes and regulations and for other reasons, ICANN may from time to time adopt policies and specifications establishing limits (a) on the Personal Data concerning Registered Names that Registrar may make available to the public through a public-access service described in this Subsection 3.3 and (b) on the manner in which Registrar may make such data available. In the event ICANN adopts any such policy, Registrar shall abide by it.

3.4 Retention of Registered Name Holder and Registration Data.

3.4.1 During the Term of this Agreement, Registrar shall maintain

its own electronic database, as updated from time to time, containing data for each active Registered Name sponsored by it within each TLD for which it is accredited. The data for each such registration shall include the elements listed in Subsections 3.3.1.1 through 3.3.1.8; the name and (where available) postal address, e-mail address, voice telephone number, and fax number of the billing contact; and any other Registry Data that Registrar has submitted to the Registry Operator or placed in the Registry Database under Subsection 3.2.

3.4.2 During the Term of this Agreement and for three years thereafter, Registrar (itself or by its agent(s)) shall maintain the following records relating to its dealings with the Registry Operator (s) and Registered Name Holders:

3.4.2.1 In electronic form, the submission date and time, and the content, of all registration data (including updates) submitted in electronic form to the Registry Operator(s);

3.4.2.2 In electronic, paper, or microfilm form, all written communications constituting registration applications, confirmations, modifications, or terminations and related correspondence with Registered Name Holders, including registration contracts; and

3.4.2.3 In electronic form, records of the accounts of all Registered Name Holders with Registrar, including dates and amounts of all payments and refunds.

3.4.3 During the Term of this Agreement and for three years thereafter, Registrar shall make these records available for inspection and copying by ICANN upon reasonable notice. ICANN shall not disclose the content of such records except as expressly permitted by an ICANN specification or policy.

3.5 Rights in Data. Registrar disclaims all rights to exclusive ownership or use of the data elements listed in Subsections 3.2.1.1 through 3.2.1.3 for all Registered Names submitted by Registrar to the Registry Database for, or sponsored by Registrar in, each TLD for which it is accredited. Registrar does not disclaim rights in the data elements listed in Subsections 3.2.1.4 through 3.2.1.6 and Subsections 3.3.1.3 through 3.3.1.8 concerning active Registered Names sponsored by it in each TLD for which it is accredited, and agrees to grant non-exclusive, irrevocable, royalty-free licenses to make use of and disclose the data elements listed in Subsections 3.2.1.4 through 3.2.1.6 and 3.3.1.3 through 3.3.1.8 for the purpose of providing a service or services (such as a Whois service under Subsection 3.3.4) providing interactive, query-based public access. Upon a change in sponsorship from Registrar of any Registered Name in a TLD for which it is accredited, Registrar acknowledges that the registrar gaining sponsorship shall have the rights of an owner to the

data elements listed in Subsections 3.2.1.4 through 3.2.1.6 and 3.3.1.3 through 3.3.1.8 concerning that Registered Name, with Registrar also retaining the rights of an owner in that data. Nothing in this Subsection prohibits Registrar from (1) restricting bulk public access to data elements in a manner consistent with this Agreement and any ICANN specifications or policies or (2) transferring rights it claims in data elements subject to the provisions of this Subsection.

3.6 Data Escrow. During the Term of this Agreement, on a schedule, under the terms, and in the format specified by ICANN, Registrar shall submit an electronic copy of the database described in Subsection 3.4.1 to ICANN or, at Registrar's election and at its expense, to a reputable escrow agent mutually approved by Registrar and ICANN, such approval also not to be unreasonably withheld by either party. The data shall be held under an agreement among Registrar, ICANN, and the escrow agent (if any) providing that (1) the data shall be received and held in escrow, with no use other than verification that the deposited data is complete, consistent, and in proper format, until released to ICANN; (2) the data shall be released from escrow upon expiration without renewal or termination of this Agreement; and (3) ICANN's rights under the escrow agreement shall be assigned with any assignment of this Agreement. The escrow shall provide that in the event the escrow is released under this Subsection, ICANN (or its assignee) shall have a non-exclusive, irrevocable, royalty-free license to exercise (only for transitional purposes) or have exercised all rights necessary to provide Registrar Services.

3.7 Business Dealings, Including with Registered Name Holders.

3.7.1 In the event ICANN adopts a specification or policy, supported by a consensus of ICANN-Accredited registrars, establishing or approving a Code of Conduct for ICANN-Accredited registrars, Registrar shall abide by that Code.

3.7.2 Registrar shall abide by applicable laws and governmental regulations.

3.7.3 Registrar shall not represent to any actual or potential Registered Name Holder that Registrar enjoys access to a registry for which Registrar is Accredited that is superior to that of any other registrar Accredited for that registry.

3.7.4 Registrar shall not activate any Registered Name unless and until it is satisfied that it has received a reasonable assurance of payment of its registration fee. For this purpose, a charge to a credit card, general commercial terms extended to creditworthy customers, or other mechanism providing a similar level of assurance of payment shall be sufficient, provided that the obligation to pay becomes final and non-revocable by the Registered Name Holder upon activation of the registration.

3.7.5 Registrar shall register Registered Names to Registered Name Holders only for fixed periods. At the conclusion of the registration period, failure by or on behalf of the Registered Name Holder to pay a renewal fee within the time specified in a second notice or reminder shall, in the absence of extenuating circumstances, result in cancellation of the registration. In the event that ICANN adopts a specification or policy concerning procedures for handling expiration of registrations, Registrar shall abide by that specification or policy.

3.7.6 Registrar shall not insert or renew any Registered Name in any registry for which Registrar is accredited by ICANN in a manner contrary to an ICANN policy stating a list or specification of excluded Registered Names that is in effect at the time of insertion or renewal.

3.7.7 Registrar shall require all Registered Name Holders to enter into an electronic or paper registration agreement with Registrar including at least the following provisions:

3.7.7.1 The Registered Name Holder shall provide to Registrar accurate and reliable contact details and promptly correct and update them during the term of the Registered Name registration, including: the full name, postal address, e-mail address, voice telephone number, and fax number if available of the Registered Name Holder; name of authorized person for contact purposes in the case of an Registered Name Holder that is an organization, association, or corporation; and the data elements listed in Subsections 3.3.1.2, 3.3.1.7 and 3.3.1.8.

3.7.7.2 A Registered Name Holder's willful provision of inaccurate or unreliable information, its willful failure promptly to update information provided to Registrar, or its failure to respond for over fifteen calendar days to inquiries by Registrar concerning the accuracy of contact details associated with the Registered Name Holder's registration shall constitute a material breach of the Registered Name Holder-registrar contract and be a basis for cancellation of the Registered Name registration.

3.7.7.3 Any Registered Name Holder that intends to license use of a domain name to a third party is nonetheless the Registered Name Holder of record and is responsible for providing its own full contact information and for providing and updating accurate technical and administrative contact information adequate to facilitate timely resolution of any problems

that arise in connection with the Registered Name. A Registered Name Holder licensing use of a Registered Name according to this provision shall accept liability for harm caused by wrongful use of the Registered Name, unless it promptly discloses the identity of the licensee to a party providing the Registered Name Holder reasonable evidence of actionable harm.

3.7.7.4 Registrar shall provide notice to each new or renewed Registered Name Holder stating:

3.7.7.4.1 The purposes for which any Personal Data collected from the applicant are intended;

3.7.7.4.2 The intended recipients or categories of recipients of the data (including the Registry Operator and others who will receive the data from Registry Operator);

3.7.7.4.3 Which data are obligatory and which data, if any, are voluntary; and

3.7.7.4.4 How the Registered Name Holder or data subject can access and, if necessary, rectify the data held about them.

3.7.7.5 The Registered Name Holder shall consent to the data processing referred to in Subsection 3.7.7.4.

3.7.7.6 The Registered Name Holder shall represent that notice has been provided equivalent to that described in Subsection 3.7.7.4 to any third-party individuals whose Personal Data are supplied to Registrar by the Registered Name Holder, and that the Registered Name Holder has obtained consent equivalent to that referred to in Subsection 3.7.7.5 of any such third-party individuals.

3.7.7.7 Registrar shall agree that it will not process the Personal Data collected from the Registered Name Holder in a way incompatible with the purposes and other limitations about which it has provided notice to the Registered Name Holder in accordance with Subsection 3.7.7.4 above.

3.7.7.8 Registrar shall agree that it will take reasonable precautions to protect Personal Data from loss, misuse, unauthorized access or disclosure, alteration, or

destruction.

3.7.7.9 The Registered Name Holder shall represent that, to the best of the Registered Name Holder's knowledge and belief, neither the registration of the Registered Name nor the manner in which it is directly or indirectly used infringes the legal rights of any third party.

3.7.7.10 For the adjudication of disputes concerning or arising from use of the Registered Name, the Registered Name Holder shall submit, without prejudice to other potentially applicable jurisdictions, to the jurisdiction of the courts (1) of the Registered Name Holder's domicile and (2) where Registrar is located.

3.7.7.11 The Registered Name Holder shall agree that its registration of the Registered Name shall be subject to suspension, cancellation, or transfer pursuant to any ICANN adopted specification or policy, or pursuant to any registrar or registry procedure not inconsistent with an ICANN adopted specification or policy, (1) to correct mistakes by Registrar or the Registry Operator in registering the name or (2) for the resolution of disputes concerning the Registered Name.

3.7.7.12 The Registered Name Holder shall indemnify and hold harmless the Registry Operator and its directors, officers, employees, and agents from and against any and all claims, damages, liabilities, costs, and expenses (including reasonable legal fees and expenses) arising out of or related to the Registered Name Holder's domain name registration.

3.7.8 Registrar shall abide by any specifications or policies established according to Section 4 requiring reasonable and commercially practicable (a) verification, at the time of registration, of contact information associated with a Registered Name sponsored by Registrar or (b) periodic re-verification of such information. Registrar shall, upon notification by any person of an inaccuracy in the contact information associated with a Registered Name sponsored by Registrar, take reasonable steps to investigate that claimed inaccuracy. In the event Registrar learns of inaccurate contact information associated with a Registered Name it sponsors, it shall take reasonable steps to correct that inaccuracy.

3.7.9 Registrar shall abide by any ICANN adopted specifications or policies prohibiting or restricting warehousing of or speculation in domain names by registrars.

3.7.10 Nothing in this Agreement prescribes or limits the amount Registrar may charge Registered Name Holders for registration of Registered Names.

3.8 Domain-Name Dispute Resolution. During the Term of this Agreement, Registrar shall have in place a policy and procedures for resolution of disputes concerning Registered Names. Until different policies and procedures are established by ICANN under Section 4, Registrar shall comply with the Uniform Domain Name Dispute Resolution Policy identified on ICANN's website (www.icann.org/general/consensus-policies.htm).

3.9 Accreditation Fees. As a condition of accreditation, Registrar shall pay accreditation fees to ICANN. These fees consist of yearly and variable fees.

3.9.1 Yearly Accreditation Fee. Registrar shall pay ICANN a yearly accreditation fee in an amount established by the ICANN Board of Directors, in conformity with ICANN's bylaws and articles of incorporation. This yearly accreditation fee shall not exceed US\$4,000 for the first TLD for which Registrar is Accredited plus US\$500 for each additional TLD for which Registrar is Accredited at any time during the year. Payment of the yearly fee shall be due within thirty days after invoice from ICANN.

3.9.2 Variable Accreditation Fee. Registrar shall pay the variable accreditation fees established by the ICANN Board of Directors, in conformity with ICANN's bylaws and articles of incorporation, provided that in each case such fees are reasonably allocated among all registrars that contract with ICANN and that any such fees must be expressly approved by registrars accounting, in the aggregate, for payment of two-thirds of all registrar-level fees. Registrar shall pay such fees in a timely manner for so long as all material terms of this Agreement remain in full force and effect, and notwithstanding the pendency of any dispute between Registrar and ICANN.

3.9.3 On reasonable notice given by ICANN to Registrar, accountings submitted by Registrar shall be subject to verification by an audit of Registrar's books and records by an independent third-party that shall preserve the confidentiality of such books and records (other than its findings as to the accuracy of, and any necessary corrections to, the accountings).

3.10 Insurance. Registrar shall maintain in force commercial general liability insurance with policy limits of at least US\$500,000 covering liabilities arising from Registrar's registrar business during the term of this Agreement.

4. PROCEDURES FOR ESTABLISHMENT OR REVISION OF SPECIFICATIONS AND POLICIES.

4.1 Registrar's Ongoing Obligation to Comply With New or Revised

Specifications and Policies. During the Term of this Agreement, Registrar shall comply with the terms of this Agreement on the schedule set forth in Subsection 4.4, with

4.1.1 new or revised specifications (including forms of agreement to which Registrar is a party) and policies established by ICANN as Consensus Policies in the manner described in Subsection 4.3,

4.1.2 in cases where:

4.1.2.1 this Agreement expressly provides for compliance with revised specifications or policies established in the manner set forth in one or more subsections of this Section 4; or

4.1.2.2 the specification or policy concerns one or more topics described in Subsection 4.2.

4.2 Topics for New and Revised Specifications and Policies. New and revised specifications and policies may be established on the following topics:

4.2.1 issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, technical reliability, and/or operational stability of Registrar Services, Registry Services, the DNS, or the Internet;

4.2.2 registrar policies reasonably necessary to implement ICANN policies or specifications relating to a DNS registry or to Registry Services;

4.2.3 resolution of disputes concerning the registration of Registered Names (as opposed to the use of such domain names), including where the policies take into account use of the domain names;

4.2.4 principles for allocation of Registered Names (e.g., first-come/first-served, timely renewal, holding period after expiration);

4.2.5 prohibitions on warehousing of or speculation in domain names by registries or registrars;

4.2.6 maintenance of and access to accurate and up-to-date contact information regarding Registered Names and nameservers;

4.2.7 reservation of Registered Names that may not be registered initially or that may not be renewed due to reasons reasonably related to (a) avoidance of confusion among or misleading of users, (b) intellectual property, or (c) the technical management of the DNS or the Internet (e.g., "example.com" and names with

single-letter/digit labels);

4.2.8 procedures to avoid disruptions of registration due to suspension or termination of operations by a registry operator or a registrar, including allocation of responsibility among continuing registrars of the Registered Names sponsored in a TLD by a registrar losing accreditation; and

4.2.9 the transfer of registration data upon a change in registrar sponsoring one or more Registered Names.

Nothing in this Subsection 4.2 shall limit Registrar's obligations as set forth elsewhere in this Agreement.

4.3 Manner of Establishment of New and Revised Specifications and Policies.

4.3.1 "Consensus Policies" are those specifications or policies established based on a consensus among Internet stakeholders represented in the ICANN process, as demonstrated by (a) action of the ICANN Board of Directors establishing the specification or policy, (b) a recommendation, adopted by at least a two-thirds vote of the council of the ICANN Supporting Organization to which the matter is delegated, that the specification or policy should be established, and (c) a written report and supporting materials (which must include all substantive submissions to the Supporting Organization relating to the proposal) that (i) documents the extent of agreement and disagreement among impacted groups, (ii) documents the outreach process used to seek to achieve adequate representation of the views of groups that are likely to be impacted, and (iii) documents the nature and intensity of reasoned support and opposition to the proposed policy.

4.3.2 In the event that Registrar disputes the presence of such a consensus, it shall seek review of that issue from an Independent Review Panel established under ICANN's bylaws. Such review must be sought within fifteen working days of the publication of the Board's action establishing the policy. The decision of the panel shall be based on the report and supporting materials required by Subsection 4.3.1. In the event that Registrar seeks review and the Independent Review Panel sustains the Board's determination that the policy is based on a consensus among Internet stakeholders represented in the ICANN process, then Registrar must implement such policy unless it promptly seeks and obtains a stay or injunctive relief under Subsection 5.6.

4.3.3 If, following a decision by the Independent Review Panel convened under Subsection 4.3.2, Registrar still disputes the presence of such a consensus, it may seek further review of that issue within fifteen working days of publication of the decision in accordance with the dispute resolution procedures set forth in

Subsection 5.6; provided, however, that Registrar must continue to implement the policy unless it has obtained a stay or injunctive relief under Subsection 5.6 or a final decision is rendered in accordance with the provisions of Subsection 5.6 that relieves Registrar of such obligation. The decision in any such further review shall be based on the report and supporting materials required by Subsection 4.3.1.

4.3.4 A specification or policy established by the ICANN Board of Directors on a temporary basis, without a prior recommendation by the council of an ICANN Supporting Organization, shall also be considered to be a Consensus Policy if adopted by the ICANN Board of Directors by a vote of at least two-thirds of its members, so long as the Board reasonably determines that immediate temporary establishment of a specification or policy on the subject is necessary to maintain the operational stability of Registrar Services, Registry Services, the DNS, or the Internet, and that the proposed specification or policy is as narrowly tailored as feasible to achieve those objectives. In establishing any specification or policy under this provision, the ICANN Board of Directors shall state the period of time for which the specification or policy is temporarily adopted and shall immediately refer the matter to the appropriate Supporting Organization for its evaluation and review with a detailed explanation of its reasons for establishing the temporary specification or policy and why the Board believes the policy should receive the consensus support of Internet stakeholders. If the period of time for which the specification or policy is adopted exceeds ninety days, the Board shall reaffirm its temporary establishment every ninety days for a total period not to exceed one year, in order to maintain such specification or policy in effect until such time as it meets the standard set forth in Subsection 4.3.1. If the standard set forth in Subsection 4.3.1 is not met within the temporary period set by the Board, or the council of the Supporting Organization to which it has been referred votes to reject the temporary specification or policy, it will no longer be a "Consensus Policy."

4.3.5 For all purposes under this Agreement, the policies specifically identified by ICANN on its website (www.icann.org/general/consensus-policies.htm) at the date of this Agreement as having been adopted by the ICANN Board of Directors before the date of this Agreement shall be treated in the same manner and have the same effect as "Consensus Policies" and accordingly shall not be subject to review under Subsection 4.3.2.

4.3.6 In the event that, at the time the ICANN Board of Directors establishes a specification or policy under Subsection 4.3.1 during the Term of this Agreement, ICANN does not have in place an Independent Review Panel established under ICANN's bylaws, the

fifteen-working-day period allowed under Subsection 4.3.2 to seek review shall be extended until fifteen working days after ICANN does have such an Independent Review Panel in place and Registrar shall not be obligated to comply with the specification or policy in the interim.

4.4 Time Allowed for Compliance. Registrar shall be afforded a reasonable period of time after receiving notice of the establishment of a specification or policy under Subsection 4.3 in which to comply with that specification or policy, taking into account any urgency involved.

5. MISCELLANEOUS PROVISIONS.

5.1 Specific Performance. While this Agreement is in effect, either party may seek specific performance of any provision of this Agreement in the manner provided in Section 5.6 below, provided the party seeking such performance is not in material breach of its obligations.

5.2 Termination of Agreement by Registrar. This Agreement may be terminated before its expiration by Registrar by giving ICANN thirty days written notice. Upon such termination by Registrar, Registrar shall not be entitled to any refund of fees paid to ICANN pursuant to this Agreement.

5.3 Termination of Agreement by ICANN. This Agreement may be terminated before its expiration by ICANN in any of the following circumstances:

5.3.1 There was a material misrepresentation, material inaccuracy, or materially misleading statement in Registrar's application for accreditation or any material accompanying the application.

5.3.2 Registrar:

5.3.2.1 is convicted by a court of competent jurisdiction of a felony or other serious offense related to financial activities, or is judged by a court of competent jurisdiction to have committed fraud or breach of fiduciary duty, or is the subject of a judicial determination that ICANN reasonably deems as the substantive equivalent of those offenses; or

5.3.2.2 is disciplined by the government of its domicile for conduct involving dishonesty or misuse of funds of others.

5.3.3 Any officer or director of Registrar is convicted of a felony or of a misdemeanor related to financial activities, or is judged by a court to have committed fraud or breach of fiduciary duty, or is the subject of a judicial determination that ICANN deems as the substantive equivalent of any of these; provided, such officer or director is not removed in such circumstances.

5.3.4 Registrar fails to cure any breach of this Agreement (other than a failure to comply with a policy adopted by ICANN during the term of this Agreement as to which Registrar is seeking, or still has time to seek, review under Subsection 4.3.2 of whether a consensus is present) within fifteen working days after ICANN gives Registrar notice of the breach.

5.3.5 Registrar fails to comply with a ruling granting specific performance under Subsections 5.1 and 5.6.

5.3.6 Registrar continues acting in a manner that ICANN has reasonably determined endangers the stability or operational integrity of the Internet after receiving three days notice of that determination.

5.3.7 Registrar becomes bankrupt or insolvent.

This Agreement may be terminated in circumstances described in Subsections 5.3.1 - 5.3.6 above only upon fifteen days written notice to Registrar (in the case of Subsection 5.3.4 occurring after Registrar's failure to cure), with Registrar being given an opportunity during that time to initiate arbitration under Subsection 5.6 to determine the appropriateness of termination under this Agreement. In the event Registrar initiates litigation or arbitration concerning the appropriateness of termination by ICANN, the termination shall be stayed an additional thirty days to allow Registrar to obtain a stay of termination under Subsection 5.6 below. If Registrar acts in a manner that ICANN reasonably determines endangers the stability or operational integrity of the Internet and upon notice does not immediately cure, ICANN may suspend this Agreement for five working days pending ICANN's application for more extended specific performance or injunctive relief under Subsection 5.6. This Agreement may be terminated immediately upon notice to Registrar in circumstance described in Subsection 5.3.7 above.

5.4 Term of Agreement; Renewal; Right to Substitute Updated Agreement.
This Agreement shall be effective on the Effective Date and shall have an initial term running until the Expiration Date, unless sooner terminated. Thereafter, if Registrar seeks to continue its accreditation, it may apply for renewed accreditation, and shall be entitled to renewal provided it meets the ICANN-adopted specification or policy on accreditation criteria then in effect, is in compliance with its obligations under this Agreement, as it may be amended, and agrees to be bound by terms and conditions of the then-current Registrar accreditation agreement (which may differ from those of this Agreement) that ICANN adopts in accordance with Subsection 2.3 and Subsection 4.3. In connection with renewed accreditation, Registrar shall confirm its assent to the terms and conditions of the then-current Registrar accreditation agreement by signing that accreditation agreement. In the event that, during the Term of this Agreement, ICANN posts on its web site an updated form of registrar accreditation agreement applicable to Accredited registrars, Registrar (provided it has not received (1) a notice of breach that it has not cured or (2) a notice of termination of this Agreement under

Subsection 5.3 above) may elect, by giving ICANN written notice, to enter an agreement in the updated form in place of this Agreement. In the event of such election, Registrar and ICANN shall promptly sign a new accreditation agreement that contains the provisions of the updated form posted on the web site, with the length of the term of the substituted agreement as stated in the updated form posted on the web site, calculated as if it commenced on the date this Agreement was made, and this Agreement will be deemed terminated.

5.5 Addition or Deletion of TLDs for Which Registrar Accredited. On the Effective Date, Registrar shall be accredited according to Subsection 2.1 for each TLD as to which an appendix executed by both parties is attached to this Agreement. During the Term of this Agreement, Registrar may request accreditation for any additional TLD(s) by signing an additional appendix for each additional TLD in the form prescribed by ICANN and submitting the appendix to ICANN. In the event ICANN agrees to the request, ICANN will sign the additional appendix and return a copy of it to Registrar. The mutually signed appendix shall thereafter be an appendix to this Agreement. During the Term of this Agreement, Registrar may abandon its accreditation for any TLD under this Agreement (provided that Registrar will thereafter remain accredited for at least one TLD under this Agreement) by giving ICANN written notice specifying the TLD as to which accreditation is being abandoned. The abandonment shall be effective thirty days after the notice is given.

5.6 Resolution of Disputes Under this Agreement. Disputes arising under or in connection with this Agreement, including (1) disputes arising from ICANN's failure to renew Registrar's accreditation and (2) requests for specific performance, shall be resolved in a court of competent jurisdiction or, at the election of either party, by an arbitration conducted as provided in this Subsection 5.6 pursuant to the International Arbitration Rules of the American Arbitration Association ("AAA"). The arbitration shall be conducted in English and shall occur in Los Angeles County, California, USA. There shall be three arbitrators: each party shall choose one arbitrator and, if those two arbitrators do not agree on a third arbitrator, the third shall be chosen by the AAA. The parties shall bear the costs of the arbitration in equal shares, subject to the right of the arbitrators to reallocate the costs in their award as provided in the AAA rules. The parties shall bear their own attorneys' fees in connection with the arbitration, and the arbitrators may not reallocate the attorneys' fees in conjunction with their award. The arbitrators shall render their decision within ninety days of the conclusion of the arbitration hearing. In the event Registrar initiates arbitration to contest the appropriateness of termination of this Agreement by ICANN, Registrar may at the same time request that the arbitration panel stay the termination until the arbitration decision is rendered, and that request shall have the effect of staying the termination until the arbitration panel has granted an ICANN request for specific performance and Registrar has failed to comply with such ruling. In the event Registrar initiates arbitration to contest an Independent Review Panel's decision under Subsection 4.3.3 sustaining the Board's determination that a specification or policy is supported by consensus, Registrar may at the same time request

that the arbitration panel stay the requirement that it comply with the policy until the arbitration decision is rendered, and that request shall have the effect of staying the requirement until the decision or until the arbitration panel has granted an ICANN request for lifting of the stay. In all litigation involving ICANN concerning this Agreement (whether in a case where arbitration has not been elected or to enforce an arbitration award), jurisdiction and exclusive venue for such litigation shall be in a court located in Los Angeles, California, USA; however, the parties shall also have the right to enforce a judgment of such a court in any court of competent jurisdiction. For the purpose of aiding the arbitration and/or preserving the rights of the parties during the pendency of an arbitration, the parties shall have the right to seek temporary or preliminary injunctive relief from the arbitration panel or in a court located in Los Angeles, California, USA, which shall not be a waiver of this arbitration agreement.

5.7 Limitations on Monetary Remedies for Violations of this Agreement.

ICANN's aggregate monetary liability for violations of this Agreement shall not exceed the amount of accreditation fees paid by Registrar to ICANN under Subsection 3.9 of this Agreement. Registrar's monetary liability to ICANN for violations of this Agreement shall be limited to accreditation fees owing to ICANN under this Agreement. In no event shall either party be liable for special, indirect, incidental, punitive, exemplary, or consequential damages for any violation of this Agreement.

5.8 Handling by ICANN of Registrar-Supplied Data. Before receiving any Personal Data from Registrar, ICANN shall specify to Registrar in writing the purposes for and conditions under which ICANN intends to use the Personal Data. ICANN may from time to time provide Registrar with a revised specification of such purposes and conditions, which specification shall become effective no fewer than thirty days after it is provided to Registrar. ICANN shall not use Personal Data provided by Registrar for a purpose or under conditions inconsistent with the specification in effect when the Personal Data was provided. ICANN shall take reasonable steps to avoid uses of the Personal Data by third parties inconsistent with the specification.

5.9 Assignment. Either party may assign or transfer this Agreement only with the prior written consent of the other party, which shall not be unreasonably withheld, except that ICANN may, with the written approval of the United States Department of Commerce, assign this agreement by giving Registrar written notice of the assignment. In the event of assignment by ICANN, the assignee may, with the approval of the United States Department of Commerce, revise the definition of "Consensus Policy" to the extent necessary to meet the organizational circumstances of the assignee, provided the revised definition requires that Consensus Policies be based on a demonstrated consensus of Internet stakeholders.

5.10 No Third-Party Beneficiaries. This Agreement shall not be construed to create any obligation by either ICANN or Registrar to any non-party to this Agreement, including any Registered Name Holder.

5.11 Notices, Designations, and Specifications. All notices to be given under this Agreement shall be given in writing at the address of the appropriate party as set forth below, unless that party has given a notice of change of address in writing. Any notice required by this Agreement shall be deemed to have been properly given when delivered in person, when sent by electronic facsimile with receipt of confirmation of delivery, or when scheduled for delivery by internationally recognized courier service. Designations and specifications by ICANN under this Agreement shall be effective when written notice of them is deemed given to Registrar.

If to ICANN, addressed to:

e-mail: [e-mail address]

5.12 Dates and Times. All dates and times relevant to this Agreement or its performance shall be computed based on the date and time observed in Los Angeles, California, USA.

5.13 Language. All notices, designations, and specifications made under this Agreement shall be in the English language.

5.14 Amendments and Waivers. No amendment, supplement, or modification of this Agreement or any provision hereof shall be binding unless executed in writing by both parties. No waiver of any provision of this Agreement shall be binding unless evidenced by a writing signed by the party waiving compliance with such provision. No waiver of any of the provisions of this Agreement shall be deemed or shall constitute a waiver of any other provision hereof, nor shall any such waiver constitute a continuing waiver unless otherwise expressly provided.

5.15 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which

together shall constitute one and the same instrument.

5.16 Entire Agreement. Except to the extent (a) expressly provided in a written agreement executed by both parties concurrently herewith or (b) of written assurances provided by Registrar to ICANN in connection with its Accreditation, this Agreement (including the appendices, which form part of it) constitutes the entire agreement of the parties pertaining to the accreditation of Registrar and supersedes all prior agreements, understandings, negotiations and discussions, whether oral or written, between the parties on that subject.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed in duplicate by their duly authorized representatives.

.AERO APPENDIX

The Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation ("ICANN"), and [Registrar Name], a [organization type and jurisdiction] ("Registrar") have entered into a Registrar Accreditation Agreement ("Registrar Accreditation Agreement"), of which this appendix (".aero Appendix") is a part.

Registrar wishes to be accredited in the .aero TLD pursuant to and subject to the Registrar Accreditation Agreement and ICANN wishes to accredit Registrar in the .aero TLD. Pursuant to and subject to the Registrar Accreditation Agreement, Registrar and ICANN hereby agree as follows:

1. Definitions. All initially capitalized terms not otherwise defined herein shall have the definitions assigned to such terms in the Registrar Accreditation Agreement.

2. Registrar Election. Registrar hereby elects and agrees to become accredited by ICANN to provide Registration Services in the .aero TLD.
3. ICANN's Acceptance. ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registration Services in the .aero TLD.
4. Need for Agreement with Sponsor. Registrar's obligation under Subsection 3.1 to operate as a registrar for the .aero TLD is conditioned upon the .aero Sponsor (designated as such by a TLD Sponsorship Agreement with ICANN) selecting Registrar as one authorized to act as an .aero registrar and upon an Authorizing Agreement between Registrar and the .aero Sponsor.
5. Sponsored TLD/Sponsor's Delegated Authority. Registrar acknowledges that the .aero TLD is a sponsored TLD, over which the .aero Sponsor has delegated policy-formulation authority under its TLD Sponsorship Agreement with ICANN. The scope of delegation is currently stated at <<http://www.icann.org/tlds/agreements/aero/sponsorship-agmt-att2-20nov01.htm>> and includes topics that will affect the manner in which Registrar conducts its business of registering domain names in the .aero TLD. (The delegation includes, for example, "Practices and performance of ICANN-Accredited Registrars selected by Sponsor with respect to Registered Names and their registration.") Registrar agrees to comply with the requirements established by the .aero Sponsor within its delegated scope of policy-formulation authority.
6. Deviations from Obligations of this Agreement Due to Delegation. The .aero Sponsor may develop and implement a policy within the scope of its authority granted by its TLD Sponsorship Agreement with ICANN that requires Registrar to deviate from one or more obligations of this Registrar Accreditation Agreement. In that event, the .aero Sponsor will notify ICANN in writing of the policy and the manner in which the .aero Sponsor believes that Registrar's obligation(s) under this Registrar Accreditation Agreement should be modified. Within thirty days after this notification, ICANN will either:
 - (a) notify Registrar and the .aero Sponsor in writing of the modification(s) to Registrar's obligations under this Registrar Accreditation Agreement that in ICANN's opinion is (are) appropriate to allow Registrar to comply with the .aero Sponsor policy. In case of this notification by ICANN, Registrar may act in conformity with the modified obligation(s) stated in the ICANN notification.
 - (b) notify Registrar and the .aero Sponsor in writing that in ICANN's opinion no modification of Registrar's obligations is appropriate. In case of this notification by ICANN, Registrar will continue to comply with its obligations without any modification until it is notified in writing by ICANN that a resolution of any difference between the opinions of ICANN and the .aero Sponsor is resolved.

IN WITNESS WHEREOF, the parties hereto have caused this .aero Appendix to be executed by their duly authorized representatives.

.BIZ APPENDIX

The Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation ("ICANN"), and [Registrar Name], a [organization type and jurisdiction] ("Registrar") have entered into a Registrar Accreditation Agreement ("Registrar Accreditation Agreement"), of which this appendix (".biz Appendix") is a part.

Registrar wishes to be accredited in the .biz TLD pursuant to and subject to the Registrar Accreditation Agreement and ICANN wishes to accredit Registrar in the .biz TLD. Pursuant to and subject to the Registrar Accreditation Agreement, Registrar and ICANN hereby agree as follows:

1. **Definitions.** All initially capitalized terms not otherwise defined herein shall have the definitions assigned to such terms in the Registrar Accreditation Agreement.
2. **Registrar Election.** Registrar hereby elects and agrees to become accredited by ICANN to provide Registration Services in the .biz TLD.
3. **ICANN's Acceptance.** ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registration Services in the .biz TLD.

IN WITNESS WHEREOF, the parties hereto have caused this .biz Appendix to be executed by their duly authorized representatives.

.COM APPENDIX

The Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation ("ICANN"), and [Registrar Name], a [organization type and jurisdiction] ("Registrar") have entered into a Registrar Accreditation Agreement ("Registrar Accreditation Agreement"), of which this appendix (".com Appendix") is a part.

Registrar wishes to be accredited in the .com TLD pursuant to and subject to the Registrar Accreditation Agreement and ICANN wishes to accredit Registrar in the .com TLD. Pursuant to and subject to the Registrar Accreditation Agreement, Registrar and ICANN hereby agree as follows:

1. **Definitions.** All initially capitalized terms not otherwise defined herein shall have the definitions assigned to such terms in the Registrar Accreditation Agreement.
2. **Registrar Election.** Registrar hereby elects and agrees to become accredited by ICANN to provide Registration Services in the .com TLD.
3. **ICANN's Acceptance.** ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registration Services in the .com TLD.

IN WITNESS WHEREOF, the parties hereto have caused this .com Appendix to be executed by their duly authorized representatives.

.COOP APPENDIX

ICANN and [Registrar] have entered into a Registrar Accreditation Agreement ("RAA"), of which this .coop Appendix ("Appendix") is a part. Pursuant to and subject to the RAA, Registrar and ICANN hereby agree as follows:

1. **Definitions.** As used in the RAA (including this appendix) with respect to the .coop TLD:

1.1 "Sponsor" refers to the entity designated as the Sponsoring Organization for the .coop TLD by a Sponsorship Agreement with ICANN, so long as that Sponsorship Agreement is in effect.

1.2 "Registry Operator" is the entity responsible, in accordance with an agreement between the Sponsor (or its assignee) and that person or entity,

for providing Registry Services for the .coop TLD.

1.3 "Registry Services," with respect to the .coop TLD, shall have the meaning defined in the Sponsorship Agreement in effect between ICANN and the Sponsor.

1.4 "Authorizing Agreement" refers to the Sponsor's standard written agreement with registrars under which they are authorized to receive from Registry Operator Registry Services for the .coop TLD.

1.5 "Registered Name" refers to a domain name within the domain of the .coop TLD, whether at the second or a lower level, about which Registry Operator (or an affiliate engaged in providing Registry Services) maintains data in a Registry Database, arranges for such maintenance, or derives revenue from such maintenance. A name in a Registry Database may be a Registered Name even though it does not appear in a zone file (e.g., a registered but inactive name).

All initially capitalized terms not otherwise defined in this Appendix shall have the definitions assigned to such terms in the RAA.

2. Registrar Election. Registrar hereby elects and agrees to become accredited by ICANN to provide Registrar Services in the .coop TLD.

3. ICANN's Acceptance. ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registrar Services in the .coop TLD.

4. Need for Agreement with Sponsor. Registrar's obligation under RAA Subsection 3.1 to operate as a registrar for the .coop TLD is conditioned upon the .coop Sponsor selecting Registrar as one authorized to act as a .coop registrar, and upon Registrar and the .coop Sponsor having an Authorizing Agreement in effect.

5. Sponsored TLD/Sponsor's Delegated Authority. Registrar acknowledges that the .coop TLD is a sponsored TLD, over which the .coop Sponsor has been delegated policy-formulation authority under its TLD Sponsorship Agreement with ICANN. The scope of delegation is currently stated at <<http://www.icann.org/tlds/agreements/coop/sponsorship-agmt-att2-06nov01.htm>> and includes topics that will affect the manner in which Registrar conducts its business of registering domain names in the .coop TLD. (The delegation includes, for example, "Practices of ICANN-Accredited Registrars selected by Sponsor with respect to Registered Names and their registration.") Registrar agrees to comply with the requirements established by the .coop Sponsor within its delegated scope of policy-formulation authority.

6. Deviations from Obligations of this Agreement Due to Delegation. The .coop Sponsor may develop and implement a policy within the scope of its authority granted by its TLD Sponsorship Agreement with ICANN that requires Registrar to deviate from one or more obligations of this RAA. In that event, the .coop Sponsor will notify ICANN in writing of the policy and the manner in which the .coop Sponsor believes that Registrar's obligation(s) under this RAA should be modified. Within thirty days after this notification, ICANN will either:

(a) notify Registrar and the .coop Sponsor in writing of the modification(s) to Registrar's obligations under this RAA that in ICANN's opinion is (are) appropriate to allow Registrar to comply with the .coop Sponsor policy. In case of this notification by ICANN, Registrar may act in conformity with the modified obligation(s) stated in the ICANN notification.

(b) notify Registrar and the .coop Sponsor in writing that in ICANN's opinion no modification of Registrar's obligations is appropriate. In case of this notification by ICANN, Registrar will continue to comply with its obligations under the RAA without any modification until it is notified in writing by ICANN that a resolution of any difference between the opinions of ICANN and the .coop Sponsor is resolved.

IN WITNESS WHEREOF, the parties hereto have caused this .coop Appendix to be executed by their duly authorized representatives.

.INFO APPENDIX

The Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation ("ICANN"), and [Registrar Name], a [organization type and jurisdiction] ("Registrar") have entered into a Registrar Accreditation Agreement ("Registrar Accreditation Agreement"), of which this appendix (".info Appendix") is a part.

Registrar wishes to be accredited in the .info TLD pursuant to and subject to the Registrar Accreditation Agreement and ICANN wishes to accredit Registrar in the .info TLD. Pursuant to and subject to the Registrar Accreditation Agreement, Registrar and ICANN hereby agree as follows:

1. Definitions. All initially capitalized terms not otherwise defined herein shall have the definitions assigned to such terms in the Registrar Accreditation Agreement.
2. Registrar Election. Registrar hereby elects and agrees to become accredited by ICANN to provide Registration Services in the .info TLD.
3. ICANN's Acceptance. ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registration Services in the .info TLD.

IN WITNESS WHEREOF, the parties hereto have caused this .info Appendix to be executed by their duly authorized representatives.

.MUSEUM APPENDIX

ICANN and [Registrar Name] have entered into a Registrar Accreditation Agreement ("RAA"), of which this .museum Appendix ("Appendix") is a part. Pursuant to and subject to the RAA, Registrar and ICANN hereby agree as follows:

1. Definitions. As used in the RAA (including this appendix) with respect to the .museum TLD:

1.1 "Sponsor" refers to the entity designated as the Sponsoring Organization for the .museum TLD by a Sponsorship Agreement with ICANN, so long as that Sponsorship Agreement is in effect.

1.2 "Registry Operator" is the entity responsible, in accordance with an agreement between the Sponsor (or its assignee) and that person or entity, for providing Registry Services for the .museum TLD.

1.3 "Registry Services," with respect to the .museum TLD, shall have the meaning defined in the Sponsorship Agreement in effect between ICANN and the Sponsor.

1.4 "Authorizing Agreement" refers to the Sponsor's standard written agreement with registrars under which they are authorized to receive from Registry Operator Registry Services for the .museum TLD.

1.5 "Registered Name" refers to a domain name within the domain of the .museum TLD, whether consisting of two or more (e.g., example.art.museum) levels, about which Registry Operator (or an affiliate engaged in providing Registry Services) maintains data in a Registry Database, arranges for such maintenance, or derives revenue from such maintenance. A name in a Registry Database may be a Registered Name even though it does not appear in a zone file (e.g., a registered but inactive name).

All initially capitalized terms not otherwise defined in this Appendix shall have the definitions assigned to such terms in the RAA.

2. Registrar Election. Registrar hereby elects and agrees to become accredited by ICANN to provide Registrar Services in the .museum TLD.

3. ICANN's Acceptance. ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registrar Services in the .museum TLD.

4. Need for Agreement with Sponsor. Registrar's obligation under RAA Subsection 3.1 to operate as a registrar for the .museum TLD is conditioned upon the .museum Sponsor selecting Registrar as one authorized to act as a .museum registrar, and upon Registrar and the .museum Sponsor having an Authorizing Agreement in effect.

5. Sponsored TLD/Sponsor's Delegated Authority. Registrar acknowledges that the .museum TLD is a sponsored TLD, over which the .museum Sponsor has been delegated policy-formulation authority under its TLD Sponsorship Agreement with ICANN. The scope of delegation is currently stated at <http://www.icann.org/tlds/agreements/museum/sponsorship-agmt-att2-20aug01.htm> and includes topics that will affect the manner in which Registrar conducts its business of registering domain names in the .museum TLD. (The delegation includes, for example, "Practices of ICANN-Accredited Registrars selected by Sponsor with respect to Registered Names and their registration.") Registrar agrees to comply with the requirements established by the .museum Sponsor within its delegated scope of policy-formulation authority.

6. Deviations from Obligations of this Agreement Due to Delegation. The .museum Sponsor may develop and implement a policy within the scope of its authority granted by its TLD Sponsorship Agreement with ICANN that requires Registrar to deviate from one or more obligations of this RAA. In that event, the .museum Sponsor will notify ICANN in writing of the policy and the manner in which the .museum Sponsor believes that Registrar's obligation(s) under this RAA should be modified. Within thirty days after this notification, ICANN will either:

(a) notify Registrar and the .museum Sponsor in writing of the modification(s) to Registrar's obligations under this RAA that in ICANN's opinion is (are) appropriate to allow Registrar to comply with the .museum Sponsor policy. In case of this notification by ICANN, Registrar may act in conformity with the modified obligation(s) stated in the ICANN notification.

(b) notify Registrar and the .museum Sponsor in writing that in ICANN's opinion no modification of Registrar's obligations is appropriate. In case of this notification by ICANN, Registrar will continue to comply with its obligations under the RAA without any modification until it is notified in writing by ICANN that a resolution of any difference between the opinions of ICANN and the .museum Sponsor is resolved.

IN WITNESS WHEREOF, the parties hereto have caused this .museum Appendix to be executed by their duly authorized representatives.

.NAME APPENDIX

The Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation ("ICANN"), and [Registrar Name], a [organization type and jurisdiction] ("Registrar") have entered into a Registrar Accreditation Agreement ("Registrar Accreditation Agreement"), of which this appendix (".name Appendix") is a part.

Registrar wishes to be accredited in the .name TLD pursuant to and subject to the Registrar Accreditation Agreement and ICANN wishes to accredit Registrar in the .name TLD. Pursuant to and subject to the Registrar Accreditation Agreement, Registrar and ICANN hereby agree as follows:

1. Definitions. All initially capitalized terms not otherwise defined herein shall have the definitions assigned to such terms in the Registrar Accreditation Agreement.

2. Registrar Election. Registrar hereby elects and agrees to become accredited by ICANN to provide Registration Services in the .name TLD.

3. ICANN's Acceptance. ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registration Services in the .name TLD.

4. Data Submission. Pursuant to Subsection 3.2.1, as part of its registration for SLD E-mail forwarding, the NameWatch Service, and Defensive Registrations, Registrar shall submit to, or shall place in the Registry Database operated by, the Registry Operator for the TLD that Registry Operator, consistent with Appendix C to its Registry Agreement with ICANN, data elements Registry Operator requires be submitted to it.

IN WITNESS WHEREOF, the parties hereto have caused this .name Appendix to be executed by their duly authorized representatives.

LOGO LICENSE APPENDIX

The Internet Corporation for Assigned Names and Numbers, a California non-profit, public benefit corporation ("ICANN"), and [Registrar Name], a [organization type and jurisdiction] ("Registrar") have entered into a Registrar Accreditation Agreement ("Registrar Accreditation Agreement"), of which this appendix ("Logo License Appendix") is a part. Definitions in the Registrar Accreditation Agreement apply in this Logo License Appendix.

Registrar wishes to acquire from ICANN, and ICANN wishes to grant to Registrar, a license to use the trademarks listed below the signature block of this Logo License Appendix ("Trademarks") in connection with Registrar's role as an ICANN-accredited registrar. Pursuant to and subject to the Registrar Accreditation Agreement, Registrar and ICANN hereby agree as follows:

LICENSE

1. Grant of License. ICANN grants to Registrar a non-exclusive, worldwide right and license to use the Trademarks, during the term of this appendix and solely in connection with the provision and marketing of Registrar Services in order to indicate that Registrar is accredited as a registrar of domain names by ICANN. Except as provided in this subsection and Subsection 2.2 of the Registrar Accreditation Agreement, Registrar shall not use the Trademarks, any term, phrase, or design which is confusingly similar to the Trademarks or any portion of the Trademarks in any manner whatsoever.
2. Ownership of Trademarks. Any and all rights in the Trademarks that may be acquired by Registrar shall inure to the benefit of, and are hereby assigned to, ICANN. Registrar shall not assert ownership of the Trademarks or any associated goodwill.
3. No Sublicense. Registrar shall not sublicense any of its rights under this appendix to any other person or entity (including any of Registrar's resellers) without the prior written approval of ICANN.

REGISTRATION AND ENFORCEMENT

1. Registration. Registration and any other form of protection for the Trademarks shall only be obtained by ICANN in its name and at its expense.
2. Enforcement. Registrar shall promptly notify ICANN of any actual or suspected infringement of the Trademarks by third parties, including Registrar's resellers or affiliates. ICANN shall

have the sole discretion to initiate and maintain any legal proceedings against such third parties; Registrar shall not take any such actions without the prior written approval of ICANN; and ICANN shall retain any and all recoveries from such actions.

3. Further Assurances. Registrar agrees to execute such other documents and to take all such actions as ICANN may request to effect the terms of this appendix, including providing such materials (for example URLs and samples of any promotional materials bearing the Trademarks), cooperation, and assistance as may be reasonably required to assist ICANN in obtaining, maintaining, and enforcing trademark registration(s) and any other form of protection for the Trademarks.

TERM AND TERMINATION

This Logo License Appendix shall be effective from the date it is signed below by both parties until the Expiration Date, unless this appendix or the Registrar Accreditation Agreement is earlier terminated. Each party shall have the right to terminate this appendix at any time by giving the other party written notice. Upon expiration or termination of this appendix, Registrar shall immediately discontinue all use of the Trademarks.

IN WITNESS WHEREOF, the parties have caused this Logo License Appendix to be executed by their duly authorized representatives.

Policy on Transfer of Registrations between Registrars

12 July 2004

A. Holder-Authorized Transfers

1. Registrar Requirements

Registered Name Holders must be able to transfer their domain name registrations between Registrars provided that the Gaining Registrar's transfer process meets the minimum standards of this policy and that such transfer is not prohibited by ICANN or Registry policies. Inter-Registrar domain name transfer processes must be clear and concise in order to avoid confusion. Further, Registrars should make reasonable efforts to inform Registered Name Holders of, and provide access to, the published documentation of the specific transfer process employed by the Registrars.

1.1 Transfer Authorities

The Administrative Contact and the Registered Name Holder, as listed in the Losing Registrar's or applicable Registry's (where available) publicly accessible WHOIS service are the only parties that have the authority to approve or deny a transfer request to the Gaining Registrar. In the event of a dispute, the Registered Name Holder's authority supersedes that of the Administrative Contact.

Registrars may use Whois data from either the Registrar of Record or the relevant Registry for the purpose of verifying the authenticity of a transfer request; or from another data source as determined by a consensus policy.

2. Gaining Registrar Requirements

For each instance where a Registered Name Holder requests to transfer a domain name registration to a different Registrar, the Gaining Registrar shall:

2.1 Obtain express authorization from either the Registered Name Holder or the Administrative Contact (hereafter, "Transfer Contact"). Hence, a transfer may only proceed if confirmation of the transfer is received by the Gaining Registrar from the Transfer Contact.

2.1.1 The authorization must be made via a valid Standardized Form of Authorization (FOA). There are two different FOA's available at the ICANN website. The FOA labeled "Initial Authorization for Registrar Transfer" must be used by the Gaining Registrar to request an authorization for a registrar transfer from the Transfer Contact. The FOA labeled "Confirmation of Registrar Transfer Request" may be used by the Registrar of Record to request confirmation of the transfer from the Transfer Contact.

The FOA shall be communicated in English, and any dispute arising out of a transfer request shall be conducted in the English language. Registrars may choose to communicate with the Transfer Contact in additional languages. However, Registrars choosing to exercise such option are responsible for the accuracy and completeness of the translation into such additional non-English version of the FOA.

2.1.2 In the event that the Gaining Registrar relies on a physical process to obtain this authorization, a paper copy of the FOA will suffice insofar as it has been signed by the Transfer Contact and further that it is accompanied by a physical copy of the Registrar of Record's Whois output for the domain name in question.

2.1.2.1 If the Gaining Registrar relies on a physical authorization process, then the Gaining Registrar assumes the burden of obtaining reliable evidence of the identity of the Transfer Contact and maintaining appropriate records proving that such evidence was obtained. Further the Gaining Registrar also assumes the burden for ensuring that the entity making the request is indeed authorized to do so. The acceptable forms of physical identity are:

- Notarized statement
- Valid Drivers license
- Passport
- Article of Incorporation
- Military ID
- State/Government issued ID
- Birth Certificate

2.1.3 In the event that the Gaining Registrar relies on an electronic process to obtain this authorization the acceptable forms of identity would include:

- Electronic signature in conformance with national legislation, in the location of the Gaining Registrar (if such legislation exists).
- Consent from an individual or entity that has an email address matching the Transfer Contact email address.

The Registrar of Record may not deny a transfer request solely because it believes that the Gaining Registrar has not received the confirmation set forth above.

A transfer must not be allowed to proceed if no confirmation is received by the Gaining Registrar. The presumption in all cases will be that the Gaining Registrar has received and authenticated the transfer request made by a Transfer Contact.

2.2 Request, by the transmission of a "transfer" command as specified in the Registrar Tool Kit, that the Registry Operator database be changed to reflect the new Registrar.

2.2.1 Transmission of a "transfer" command constitutes a representation on the part of the Gaining Registrar that the requisite authorization has been obtained from the Transfer Contact listed in the authoritative Whois database.

2.2.2 The Gaining Registrar is responsible for validating the Registered Name Holder requests to transfer domain names between Registrars. However, this does not preclude the Registrar of Record from exercising its option to independently confirm the Registered Name Holder's intent to transfer its domain name to the Gaining Registrar in accordance with Section 3 of this policy.

3. Obligations of the Registrar of Record

A Registrar of Record can choose independently to confirm the intent of the Registered Name Holder when a notice of a pending transfer is received from the Registry. The Registrar of Record must do so in a manner consistent with the standards set forth in this agreement pertaining to Gaining Registrars. In order to ensure that the form of the request employed by the Registrar of Record is substantially administrative and informative in nature and clearly provided to the Transfer Contact for the purpose of verifying the intent of the Transfer Contact, the Registrar of Record must use the FOA.

The FOA shall be communicated in English, and any dispute arising out of a transfer request, shall be conducted in the English language. Registrars may choose to communicate with the Transfer Contact in additional languages. However, the Registrar choosing to exercise such option is responsible for the accuracy and completeness of the translation into such additional non-English version of the FOA. Further, such non-English communications must follow the processes and procedures set forth in this policy. This includes but is not limited to the requirement that no Registrar shall add any additional information to the FOA used to obtain the consent of the Transfer Contact in the case of a transfer request.

This requirement does not preclude the Registrar of Record from marketing to its existing customers through separate communications.

The FOA should be sent by the Registrar of Record to the Transfer Contact as soon as operationally possible, but must be sent not later than twenty-four (24) hours after receiving the transfer request from the Registry Operator.

Failure by the Registrar of Record to respond within five (5) calendar days to a notification from the Registry regarding a transfer request will result in a default "approval" of the transfer.

In the event that a Transfer Contact listed in the Whois has not confirmed their request to transfer with the Registrar of Record and the Registrar of Record has not explicitly denied the transfer request, the default action will be that the Registrar of Record must allow the transfer to proceed.

Upon denying a transfer request for any of the following reasons, the Registrar of Record must provide the Registered Name Holder and the potential Gaining Registrar with the reason for denial. The Registrar of Record may deny a transfer request only in the following specific instances:

1. Evidence of fraud
2. UDRP action
3. Court order by a court of competent jurisdiction
4. Reasonable dispute over the identity of the Registered Name Holder or Administrative Contact
5. No payment for previous registration period (including credit card charge-backs) if the domain name is past its expiration date or for previous or current registration periods if the domain name has not yet expired. In all such cases, however, the domain name must be put into "Registrar Hold" status by the Registrar of Record prior to the denial of transfer.
6. Express written objection to the transfer from the Transfer Contact. (e.g. - email, fax, paper document or other processes by which the Transfer Contact has expressly and voluntarily objected through opt-in means)
7. A domain name was already in "lock status" provided that the Registrar provides a readily accessible and reasonable means for the Registered Name Holder to remove the lock status.
8. A domain name is in the first 60 days of an initial registration period.
9. A domain name is within 60 days (or a lesser period to be determined) after being transferred (apart from being transferred back to the original Registrar in cases where both Registrars so agree and/or where a decision in the dispute resolution process so directs).

Instances when the requested change of Registrar may not be denied include, but are not limited to:

- Nonpayment for a pending or future registration period

- No response from the Registered Name Holder or Administrative Contact.
- Domain name in Registrar Lock Status, unless the Registered Name Holder is provided with the reasonable opportunity and ability to unlock the domain name prior to the Transfer Request.
- Domain name registration period time constraints, other than during the first 60 days of initial registration or during the first 60 days after a registrar transfer.
- General payment defaults between Registrar and business partners / affiliates in cases where the Registered Name Holder for the domain in question has paid for the registration.

The Registrar of Record has other mechanisms available to collect payment from the Registered Name Holder that are independent from the Transfer process. Hence, in the event of a dispute over payment, the Registrar of Record must not employ transfer processes as a mechanism to secure payment for services from a Registered Name Holder. Exceptions to this requirement are as follows:

- (i) In the case of non-payment for previous registration period(s) if the transfer is requested after the expiration date, or
- (ii) In the case of non-payment of the current registration period, if transfer is requested before the expiration date.

4. Registrar Coordination

Each Registrar is responsible for keeping copies of documentation, including the FOA and the Transfer Contacts response thereto, that may be required for filing and supporting a dispute under the dispute resolution policy. Gaining Registrars must maintain copies of the FOA as received from the Transfer Contact as per the standard document retention policies of the contracts. Copies of the reliable evidence of identity must be kept with the FOA.

Both the Gaining Registrar and the Registrar of Record must provide the evidence relied on for the transfer during and after the applicable inter-registrar domain name transaction(s). Such information must be provided when requested by, and only by, the other Registrar that is party to the transfer transaction. Additionally, ICANN, the Registry Operator, a court or authority with jurisdiction over the matter or a third party dispute resolution panel may also require such information within five (5) days of the request.

The Gaining Registrar must retain, and produce pursuant to a request by a Losing Registrar, a written or electronic copy of the FOA. In instances where the Registrar of Record has requested copies of the FOA, the Gaining Registrar must fulfill the Registrar of Records request (including providing the attendant supporting documentation) within five (5) calendar days. Failure to provide this documentation within the time period specified is grounds for reversal by the Registry Operator or the Dispute Resolution Panel in the event that a transfer complaint is filed in accordance with the requirements of this policy.

If either a Registrar of Record or a Gaining Registrar does not believe that a transfer request was handled in accordance with the provisions of this policy, then the Registrar may initiate a dispute resolution procedure as set forth in Section C of this policy.

For purposes of facilitating transfer requests, Registrars should provide and maintain a unique and private email address for use only by other Registrars and the Registry:

- i. This email address is for issue related to transfer requests and the procedures set forth in this policy only.
- ii. The email address should be managed to ensure messages are received by someone who can respond to the transfer issue.
- iii. Messages received at such email address must be responded to within a

commercial reasonable timeframe not to exceed seven (7) calendar days.

5. EPP - based Registry Requirements for Registrars

In EPP-based gTLD Registries, Registrars must follow the requirements set forth below.

Registrars must provide the Registered Name Holder with the unique "AuthInfo" code within five (5) calendar days of the Registered Name Holder's initial request if the Registrar does not provide facilities for the Registered Name Holder to generate and manage their own unique "AuthInfo" code.

Registrars may not employ any mechanism for complying with a Registered Name Holder's request to obtain the applicable "AuthInfo Code" that is more restrictive than the mechanisms used for changing any aspect of the Registered Name Holder's contact or name server information.

The Registrar of Record must not refuse to release an "AuthInfo Code" to the Registered Name Holder solely because there is a dispute between the Registered Name Holder and the Registrar over payment.

Registrar-generated "AuthInfo" codes must be unique on a per-domain basis.

The "Auth-Info" codes must be used solely to identify a Registered Name Holder, whereas the FOA's still need to be used for authorization or confirmation of a transfer request, as described in Section 2 and Section 4 of this policy.

6. Registry Requirements

Upon receipt of the "transfer" command from the Gaining Registrar, Registry Operator will transmit an electronic notification to both Registrars. In the case of those Registries that use electronic mail notifications, the response notification may be sent to the unique email address established by each Registrar for the purpose of facilitating transfers.

The Registry Operator shall complete the requested transfer unless, within five (5) calendar days, Registry Operator receives a NACK protocol command from the Registrar of Record.

When the Registry's database has been updated to reflect the change to the Gaining Registrar, Registry Operator will transmit an electronic notification to both Registrars. The notification may be sent to the unique email address established by each Registrar for the purpose of facilitating transfers or such other email address agreed to by the parties.

The Registry Operator shall undo a transfer if, after a transfer has occurred, the Registry Operator receives one of the notices as set forth below. In such case, the transfer will be reversed and the domain name reset to its original state. The Registry Operator must undo the transfer within five (5) calendar days of receipt of the notice except in the case of a Registry dispute decision, in which case the Registry Operator must undo the transfer within fourteen calendar days unless a court action is filed. The notice required shall be one of the following:

- i. Agreement of the Registrar of Record and the Gaining Registrar sent by email, letter or fax that the transfer was made by mistake or was otherwise not in accordance with the procedures set forth in this policy;
- ii. The final determination of a dispute resolution body having jurisdiction over the transfer; or
- iii. Order of a court having jurisdiction over the transfer.

7. Records of Registration

Each Registrar shall require its customer, the Registered Name Holder, to maintain its own records appropriate to document and prove the initial domain name registration date.

8. Effect on Term of Registration

The completion by Registry Operator of a holder-authorized transfer under this Part A shall result in a one-year extension of the existing registration, provided that in no event shall the total unexpired term of a registration exceed ten (10) years.

B. ICANN-Approved Transfers

Transfer of the sponsorship of all the registrations sponsored by one Registrar as the result of (i) acquisition of that Registrar or its assets by another Registrar, or (ii) lack of accreditation of that Registrar or lack of its authorization with the Registry Operator, may be made according to the following procedure:

(a) The gaining Registrar must be accredited by ICANN for the Registry TLD and must have in effect a Registry-Registrar Agreement with Registry Operator for the Registry TLD.

(b) ICANN must certify in writing to Registry Operator that the transfer would promote the community interest, such as the interest in stability that may be threatened by the actual or imminent business failure of a Registrar.

Upon satisfaction of these two conditions, Registry Operator will make the necessary one-time changes in the Registry database for no charge, for transfers involving 50,000 name registrations or fewer. If the transfer involves registrations of more than 50,000 names, Registry Operator will charge the gaining Registrar a one-time flat fee of US\$ 50,000.

C. Transfer Dispute Resolution Policy

Procedures for handling disputes concerning inter-registrar transfers are set forth in the Transfer Dispute Resolution Policy. Procedures in this policy must be followed by the applicable Registry Operators and ICANN accredited Registrars.

Miami Beach, FL 33140
Attn: Kevin Medina, CEO

Re: Notice of Termination of Registrar Accreditation Agreement for Top Class Names, Inc. ("RegisterFly")

Dear Mr. Medina:

This shall constitute formal notice of termination of the Registrar Accreditation Agreement between Top Class Names, Inc. (the corporate predecessor and contracting party identified herein as "RegisterFly") and ICANN (the "RAA"). Effective 31 March 2007, consistent with the terms of the RAA, RegisterFly will no longer be allowed to operate as an ICANN-Accredited Registrar.

Additionally, ICANN hereby provides you notice of the revocation of the Logo License Appendix to the above-mentioned RAA, and demands that you remove all ICANN Trademarks immediately from your website and business materials, that have been licensed to you under the terms of that appendix.

As you are aware and have acknowledged in communications with ICANN staff and others, on 21 February 2007, ICANN issued to RegisterFly a "Notice of Breach of Registrar Accreditation Agreement" (the "21 February Notice"). As stated in the 21 February Notice, pursuant to Section 5.3.4 of the RAA, if RegisterFly did not cure each identified breach within 15 working days, ICANN may provide notice of and terminate the RAA.

RegisterFly's 15 working days to cure has expired. RegisterFly remains in breach of the identified provisions. As a result, and in accordance with sections 5.3 and 5.3.4 of the RAA, ICANN hereby gives RegisterFly notice that ICANN is terminating the RAA and RegisterFly's accreditation will expire effective 31 March 2007.

As set forth in the 21 February Notice, RegisterFly is in breach of sections 3.4 and 4.1 of the RAA. RegisterFly has failed to cure its breaches of section 3.4 and has not demonstrated that the breaches of section 4.1 have been cured within the 15 working day notice period. For

<http://icann.org>

ATTACHMENT 4 79

RegisterFly.com, Inc.
16 March 2007
Page 2

example, in continuing breach of section 4.1, RegisterFly has failed to demonstrate that it has cured its violations of the Inter-Registrar Transfer Policy and ICANN receives information, on a daily basis, that RegisterFly continues to fail to unlock and/or timely provide required AuthInfo codes to registrants requesting to transfer their registered names to a different ICANN-accredited registrar. On 8 March 2007, ICANN again informed RegisterFly in writing of its continuation of this breach.

RegisterFly also failed to cure its breach of section 3.4, governing the maintenance and provision of all registration data to ICANN. RegisterFly failed to comply with ICANN's repeated audit demands within the time frames reasonably set by ICANN.

Due to RegisterFly's failures to cure its breaches of the RAA identified in the 21 February Notice, ICANN hereby terminates the RAA effective 31 March 2007. ICANN further notes that RegisterFly has failed to cure other RAA breaches identified in ICANN's 2 March 2007 Breach Notice to RegisterFly.

Accordingly, effective 31 March 2007, RegisterFly will no longer be allowed to operate as an ICANN-Accredited Registrar. Between now and 31 March, under the RAA and the Inter-Registrar Transfer Policy, RegisterFly is required to unlock and provide all necessary AuthInfo Codes to allow for domain name transfers to occur. Any and all registrants wishing to transfer from RegisterFly during this period should be allowed to do so and the transfer must be performed expeditiously. Further, under the RAA and the Inter-Registrar Transfer Policy, upon termination of the RegisterFly RAA, ICANN may approve a bulk transfer of all current RegisterFly domain names to an ICANN-Accredited Registrar if ICANN deems doing so will promote the community interests. RegisterFly may suggest an ICANN-Accredited Registrar that meets all ICANN required criteria. That suggestion will be considered should a bulk transfer of registrations occur, depending on the suitability.

ICANN continues to demand that RegisterFly act in the best interests of the registrants. ICANN encourages RegisterFly to act with all due haste in assisting the registrants that are still reportedly not getting appropriate services.

Finally, the formal date of termination should not restrict you from taking earlier steps to the benefit of the registrants. ICANN remains willing to approve a bulk transfer of registrations to an ICANN-Accredited Registrar prior to 31 March 2007.

Very truly yours,

A handwritten signature in black ink, appearing to read "John O. Jeffrey", with a long horizontal flourish extending to the right.
