

The Internet Corporation for Assigned Names and Numbers

19 May 2015

Mr. Stéphane Hankins
International Committee of the Red Cross

Mr. Christopher Rassi
International Federation of Red Cross and Red Crescent Societies

Dear Stéphane and Chris,

Thank you for your note of 21 November 2014 providing suggested revisions to the list of DNS labels associated with Red Cross and Red Crescent (RCRC) names that registry operators were directed to reserve pursuant to Specification 5 of the New gTLD Registry Agreement.

At its meeting held on 12 – 14 October 2014, the ICANN Board New gTLD Program Committee (NGPC) [directed](#) the President and CEO to provide temporary protections for the names of the International Committee of the Red Cross and International Federation of the Red Cross and Red Crescent Societies, and the 189 National Red Cross and Red Crescent Societies, as identified in the GAC Register of Advice as [2014-03-27-RCRC](#) while the GAC, GNSO, Board, and ICANN community continue to actively work on resolving the differences in the advice from the GAC and the GNSO policy recommendations on the scope of protections for the RCRC names.

After consideration of the revised list of DNS labels you provided and the NGPC resolution, we make note of the following:

1. The names of RCRC National Societies are eligible for protection in English as directed by the NGPC's resolution, which instructed staff to "provide temporary protections for the names of the International Committee of the Red Cross and International Federation of the Red Cross and Red Crescent Societies, and the 189 National Red Cross and Red Crescent Societies, as identified in the GAC Register of Advice as [2014-03-27-RCRC](#) while the GAC, GNSO, Board, and ICANN community continue to actively work on resolving the differences in the advice from the GAC and the GNSO policy recommendations on the scope of protections for the RCRC names." The GAC advice referenced in the NGPC's resolution calls for protections of "the 189 National Red Cross and Red Crescent Societies, in English and the official languages of their respective states of origin." We will direct registry operators to reserve these labels.

2. Some of the labels on the revised list are too long for the DNS. Refer to lines 72 – 75, 78, 79, 559, and 560 for those labels that cannot be reserved because they are too long.
3. The list of DNS labels includes some acronyms for RCRC National Society Names. As noted above in #1, the NGPC resolution calls for protection of “the 189 National Red Cross and Red Crescent Societies, in English and the official languages of their respective states of origin,” but does not call for protection of the acronyms corresponding to the 189 National Red Cross and Red Crescent Society Names. Refer to lines 379, 380, 531, 532, 872, 873, 928, 944, 975, 976, 985, and 1011 for those labels that appear to represent acronyms that are not eligible for reservation.
4. The revised list of DNS labels includes International Red Cross and Red Crescent Movement names outside the scope of what the NGPC directed to be reserved pursuant to [NGPC Resolution 2012.11.26.NG03](#). Refer to lines 144, 145, 319 – 324, 377, 378, 383, 384, 461, 462, 514 – 516, 665, 666, 694, 695, 714, 715, 742, 743, 862, 863, 906, 907, 1008, 1009, and 1010. Please clarify the basis for directing registry operators to protect these labels.
5. The revised list of DNS includes some labels where the characters do not render properly in the Word document. Refer to line 622. Please send these labels in a csv file so that we may review the proposed labels.
6. For some RCRC National Society names on the revised list, more than one English language version of the official name of the National Society is on the list. Refer to lines 132 – 135, 441 – 444, 655 – 658, 724 – 727, 744 – 747, 770 – 773, 808 – 811, 828 – 835, 836 – 839, 844 – 847, 856 – 859, 866 – 871, 874 – 877, 886 – 889, 894 – 897, 961 – 964, 994 – 997, 998 – 1001, 1026 – 1029, 1038 – 1041, and 1042 – 1045. As noted above in #1, the NGPC resolution calls for protection of “the 189 National Red Cross and Red Crescent Societies, in English and the official languages of their respective states of origin.” Please advise which one of the English language labels should be reserved.
7. Please confirm how you propose to treat “the” when it is part of the official name of the RCRC National Society name. For example, the official name of the Red Cross National Society in Thailand is “The Thai Red Cross Society.” When creating the DNS labels, should corresponding DNS labels be: “the-thai-red-cross-society” and “thethairedcrosssociety”? Or, should the DNS labels include the previous two labels in addition to “thai-red-cross-society” and “thairedcrosssociety”?

Please let us know if you would like any further explanation for each of the points raised above.

Kind regards,

A handwritten signature in purple ink, which appears to read "Cyrus Namazi".
