Proposed Service

Name of Proposed Service:

Addition of Certain Language Scripts to Donuts TLDs

Technical description of Proposed Service:

Donuts Inc. ("Donuts") would like to provide registration of domain names in French, Spanish, German, and Chinese languages across all Donuts-operated TLDs. To accomplish this, we hereby seek approval to add German and Chinese to <.IMMO>. Given that the RSEP portal does not accept the required language table format, the German and Chinese language tables have been submitted via the GDD portal for ICANN's review. Note that all of these tables have been previously provided to and approved by ICANN and have passed Pre-Delegation Testing for a delegated TLD. Examples: the German table was approved and tested for <.reisen>; and the Chinese table was approved and tested for <.?? (games)>.

Consultation

Please describe with specificity your consultations with the community, experts and or others. What were the quantity, nature and content of the consultations?:

Donuts reviewed the multitude of IDNs offered by legacy TLD registry operators.

a. If the registry is a sponsored TLD, what were the nature and content of these consultations with the sponsored TLD community?:

N/A

b. Were consultations with gTLD registrars or the registrar constituency appropriate? Which registrars were consulted? What were the nature and content of the consultation?:

N/A

c. Were consultations with other constituency groups appropriate? Which groups were consulted? What were the

nature and content of these consultations?:

N/A

d. Were consultations with end users appropriate? Which groups were consulted? What were the nature and content of these consultations?:

N/A

e. Who would endorse the introduction of this service? What were the nature and content of these consultations?:

Donuts has been informed by registrars that registrants across the world will welcome the addition of IDNs to the portfolio of Donuts-operated TLDs. Registrants have also reached out directly to Donuts regarding the launch of these IDNs in Donuts-operated TLDs.

f. Who would object the introduction of this service? What were(or would be) the nature and content of these consultations?:

Donuts sees no reason why a constituency group would object to offering registration of domain names in more languages.

Timeline

Please describe the timeline for implementation of the proposed new registry service:

Donuts plans offer these languages as soon as ICANN has approved this RSEP request.

Business Description

Describe how the Proposed Service will be offered:

The additional languages will be offered for registration in Donuts-operated TLDs in the same manner as the currently approved languages.

Benefits of Service

Describe the benefits of the Proposed Service:

The addition of languages for domain name registration provides registrants the ability to register domain names that are more meaningful and specific to the region in which they live and operate. By providing the opportunity to register domain names in additional languages, Donuts seeks to broaden consumer choice in the world marketplace.

Competition

Do you believe your proposed new Registry Service would have any positive or negative effects on competition? If so, please explain.:

\r\nAllowing Donuts to provide these additional languages will begin to allow a new gTLD registry operator to more fairly compete in the global market. Note that legacy TLD registry operators have been permitted to offer multiple languages for their TLDs without the need for an official RSEP.

How would you define the markets in which your proposed Registry Service would compete?:

These additional languages would give Donuts the opportunity to compete across in markets across the world.

What companies/entities provide services or products that are similar in substance or effect to your proposed Registry Service?:

Legacy TLD registry operators permit multiple language script registration in their TLDs. A list can be found on the IANA website: <http://www.iana.org/domains/idn-tables>.
