Dear Sir

Subject: DIDP Request on financial contributions to ICANN by RIRs through the NRO

Through our earlier DIDPs, we were able to get a lot of information on the “voluntary contributions” of the Regional Internet Registries through the NRO to ICANN. We found that NRO’s contribution to ICANN is not broken down according to the amount given by each RIR. As a follow up to our earlier requests, we have the following questions:

- 1) Documents showing the reasons why ICANN possesses the breakdown of the FY03, FY04, and FY05 contributions but not for the other years.
- 2) According to ICANN’s response to an earlier DIDP, we found that the FY03 breakdown of NRO contribution to ICANN is as follows:

**FY03: APNIC (US\$129,400), ARIN (US\$159,345), and RIPE (US\$206,255) which adds up to 495,000.**

However, in the FY03 financial report on the ICANN website, the revenue from Address Registry Fees = **535,000.**

We would like to request documentation from ICANN that explains this discrepancy.

We hope that our request will be processed within the stipulated time period of 30 days. Do let us know if you require any clarifications on our queries.

Thank You  
Asvatha Babu
