IAB Liaison to the RSSAC

Historically, the Internet Architecture Board (IAB) has provided a liaison to the Root Server System Advisory Committee (RSSAC). With the recent re-establishment of the RSSAC, this statement confirms this ongoing liaison.

This liaison is nominated by IAB using its own procedures, as described in RFC2850. The IAB-appointed liaison sits on the RSSAC as a non-voting member and follows RSSAC procedures. The liaison acts a conduit between the two organizations on matters that need to be coordinated or communicated between the two organizations.
