Proposed Service

Name of Proposed Service:

Release of Country and Territory Names for .DELTA

Technical description of Proposed Service:

Pursuant to Section 4 of Specification 5 of the Registry Agreement between ICANN and DELTA AIR LINES, INC. ("Registry Operator"), we request the release of reserved Country and Territory Names within .DELTA. These include the following: The short form (in English) of all country and territory names contained on the ISO 3166-1 list, as updated from time to time, including the European Union, which is exceptionally reserved on the ISO 3166-1 list, and its scope extended in August 1999 to any application needed to represent the name European Union, The United Nations Group of Experts on Geographical Names, Technical Reference Manual for the Standardization of Geographical Names, Part III Names of Countries of the World, and the list of United Nations member states in 6 official United Nations languages prepared by the Working Group on Country Names of the United Nations Conference on the Standardization of Geographical Names.

Consultation

Please describe with specificity your consultations with the community, experts and or others. What were the quantity, nature and content of the consultations?:

Registry Operator has not undertaken direct consultation with the community, experts or others. Registry Operator relies on the historical availability of such names in legacy domains, as well as the recent comments of the Governmental Advisory Committee in its October 2014, 2014 Los Angeles Communiqué whereby it recognized that two-character second level domain names are in wide use across existing TLDs, and have not been the cause of any security, stability, technical or competition concerns and indicated no major concerns about registry operators seeking approval for the release of country names and territory names at the second level. Since such names will be used in accordance to Specification 13 of the Registry Agreement within a closed .brand registry, it is almost impossible to anticipate any abuse or misconduct, or that such domain name could be confusing to users or otherwise offensive to any country.

a. If the registry is a sponsored TLD, what were the nature and content of these consultations with the sponsored TLD community?:

b. Were consultations with gTLD registrars or the registrar constituency appropriate? Which registrars were consulted? What were the nature and content of the consultation?:

Not applicable

c. Were consultations with other constituency groups appropriate? Which groups were consulted? What were the nature and content of these consultations?:

Not applicable

d. Were consultations with end users appropriate? Which groups were consulted? What were the nature and content of these consultations?:

As .DELTA will be a closed .brand TLD with the Registry Operator, its Affiliates and Trademark Licensees will act as the registrants for all domain names, including country and territory names. Registry Operator expects that end-users, existing and potential customers of Registry Operator will highly benefit from the ability to navigate the localized content associated with the geographic .brand domain names.

e. Who would endorse the introduction of this service? What were the nature and content of these consultations?:

The Registry Operator, its Affiliates and Trademark Licensees fully endorse the introduction of this service. Registry Operator supports the release of country and territory for use in conjunction with its business purposes in a non-confusing manner. As indicated above, the GAC has not identified concerns or significant issues in the release of such names.

f. Who would object the introduction of this service? What were(or would be) the nature and content of these consultations?:

We are not aware of any specific objections but are fully prepared to engage in dialogue if any GAC Representative or other Government Authority raises concerns about their country or territory name being released in .DELTA in response to this RSEP request. In the event that a relevant concern might be raised, Registry Operator is prepared to engage the related party in accordance with any process specially developed for such purpose or as otherwise required by ICANN.

United Nations languages prepared by the Working Group on Country Names of the United Nations Conference on the Standardization of Geographical Names; provided, that the reservation of specific country and territory names (including their IDN variants according to the registry operator IDN registration policy, where applicable) may be released to the extent that Registry Operator reaches agreement with the applicable government(s). Registry Operator must not activate such names in the DNS; provided, that Registry Operator may propose the release of these reservations, subject to review by ICANN's Governmental Advisory Committee and approval by ICANN. Upon conclusion of Registry Operator's designation as operator of the registry for the TLD, all such names that remain withheld from registration or allocated to Registry Operator shall be transferred as specified by ICANN. Registry Operator may self-allocate and renew such names without use of an ICANN accredited registrar, which will not be considered Transactions for purposes of Section 6.1 of the Agreement.

What effect, if any, will the Proposed Service have on the reporting of data to ICANN:

Not applicable

What effect, if any, will the Proposed Service have on the Whois?:

Do you believe your proposed new Registry Service would have any positive or negative effects on competition? If so, please explain.:

Efficient navigation to country and language web pages appropriate for the end user will enhance competition and choice in the global marketplace will create a positive effect.

How would you define the markets in which your proposed Registry Service would compete?:

The effect of the release of country and territory names in the .DELTA TLD space will be potentially in all markets, as Registry Operator is a global leader in its area of activity.

What companies/entities provide services or products that are similar in substance or effect to your proposed Registry Service?:

Legacy TLD operators currently provide for the registration of country and territory names as domain names.

In view of your status as a registry operator, would the introduction of your proposed Registry Service potentially impair the ability of other companies/entities that provide similar products or services to compete?:

No

Do you propose to work with a vendor or contractor to provide the proposed Registry Service? If so, what is the name of the vendor/contractor, and describe the nature of the services the vendor/contractor would provide.:
