

LGR-2 Code Table

Integration Panel

Date: 2017-07-26

This document shows the repertoire for LGR-2 presented in the form of marked up tables in a format similar to that used for character code charts in the Unicode Standard. Code cells with background color:

- Green: code points that are part of the LGR, including all members of code point sequences.
- White: code points that are not PVALID in IDNA2008 [RFC5892] [IDNAREG]
- Pink: PVALID code points which are *excluded* from the Root Zone in a generic fashion (digits, hyphen), or by being excluded from the Maximum Starting Repertoire [MSR-2]
- Lavender: PVALID code points not included in the LGR as results of decisions during the development of the LGR.

Unicode blocks that contain no repertoire of the LGR are suppressed.

[IDNAREG] IANA Registry: "IDNA Parameters". For Unicode 6.3 available at:
