# Customer/Consumer User Group Demand

- “I have never liked having my home address and phone number freely listed for anyone who looks at my domain name information. As an individual, I do not have access to PO boxes or corporate numbers to use as valid replacements. Requiring us to update this highly personal information and make it public is preposterous.”

# Customer/Consumer User Group Demand

- “Because my information was listed on whois, a man who has been harassing me online for about a year, was able to get my home address, and telephone number and step up his harassment of me.”
- “I should have the choice of omitting my personal information (home address, phone number, and email address) from this public database.”

# Customer/Consumer User Group Demand

- “I would register more domains if I were not concerned about the privacy ramifications.”
