Amendment to Registry Agreements

THIS AMENDMENT ("Amendment"), effective as of _____ ("Amendment Effective Date"), is made by and between the Internet Corporation for Assigned Names and Numbers ("ICANN") and Uniregistry, Corp., and shall amend the Registry Agreement for certain top-level domains ("TLDs") in the manner as further detailed and described herein.

WHEREAS, Uniregistry, Corp. is the Registry Operator of those TLDs identified in Appendix I to this Amendment, which is attached hereto and incorporated herein, and represents it has proper authority to execute this Amendment for the purposes intended; and

WHEREAS, in the interest of the mutual convenience of the parties, in lieu of executing an individual amendment to the Registry Agreement for each individual TLD, the parties hereby desire to consolidate the modifications as provided in this Amendment.

NOW THEREFORE, the parties hereto, intending to be legally bound, hereby do agree to the following:

1. The Registry Agreement for those TLDs identified in Appendix I shall be amended pursuant to the Amendment number set forth in Appendix I.

2. The parties hereby agree to amend Exhibit A of each of the Registry Agreements identified in Appendix I by deleting the following section 6 in its entirety:

[OLD TEXT]

"**6.   "Blocked Names"**

    6.1.   Registry operator may offer the "Blocked Names" service, which is a registry service that allows trademark rights holders to register domain names based on the labels listed in a valid SMD issued by an ICANN-authorized trademark validator.

    6.2.   Registry Operator must offer registrars support for the "Blocked Names" service in EPP.

    6.3.   Domain names registered using the "Blocked Names" service must be registered through a registrar and reported to ICANN as any other transaction.

    6.4.   The "Blocked Names" service must be disabled for a specific domain name when requested by the sponsoring Registrar.

    6.5.   Domain names registered using the "Blocked Names" service may be activated for the purpose of displaying a web page stating that the domain name has been registered as a "Blocked Name"."

[End OLD TEXT]

The parties hereby further agree to amend Exhibit A of each of the Registry Agreements identified in Appendix I by adding a new section 6 as follows:

[START NEW TEXT]

"6. **Protected Marks List - Uniregistry EP Bundle and Uniregistry EP Plus Bundle**

6.1. This protected marks list is a service that, across the TLDs operated by the Registry Operator, allows trademark rights holders to request that the Registry Operator withhold domain names from registration based on the labels listed in a valid SMD file issued by an ICANN-authorized trademark validator.

6.2. The Registry Operator must validate that the SMD is valid at the initial time of withholding domain names. The domain names will continue being withheld for the duration of the agreement between the Registry Operator and the trademark rights holder (through its Registrar), irrespective of the validity date of the SMD.

6.3. The withheld names must comply with the provisions described in Specification 5, Section 3.3 of the Registry Agreement.

6.4. Registry Operator must offer registrars support for the Uniregistry EP service in EPP.

6.5. Blocked labels do not prevent other rights holders of identical trademarks which are subscribers to the service from unblocking the label and registering the domain name.

6.6. As part of the EP Plus Bundle service, domain names that can be withheld from registration by trademark right holders can be composed of confusingly similar variations of their marks in several languages and scripts. For each label in the SMD, variations are automatically calculated based on confusable characters defined by Unicode Consortium for these languages."

[END NEW TEXT]

The parties agree that, except as set forth in this Amendment and any prior duly authorized and executed amendments, the current terms and conditions of the Registry Agreements identified in Appendix I will remain in full force and effect. All capitalized terms not defined will have the meaning given to them in each such Registry Agreement.

ACCEPTED AND AGREED:

INTERNET CORPORATION FOR ASSIGNED NAMES AND NUMBERS
